SUMMARY: FILE REVIEW
Of the Death of a Youth in the Care of the Director in 2018

Circumstances of the Fatality

The review examined the case files of a youth in the care of the Director who died from a medical issue. The youth came into care as the parents were unable to meet the youth's medical needs. The Director was providing services to address the youth's specialized medical needs.

Findings

The youth had a thorough, well-developed care plan that addressed their needs. The youth had an involved and collaborative care team that was responsive to their health needs and provided support to the youth and their family. The transition plan to adulthood was comprehensive and included support for the youth regarding a specific issue. The youth's death was not related to practice, or to any medical needs that were not addressed.

Actions

The findings of the file review did not identify areas that required any actions.

The review was completed in January 2019.
