BC Transit Executive Compensation Disclosure 2010/2011

BC Transit has a mandate to maximize the efficient and cost effective use of resources in the provision of safe, innovative and customer-oriented services to meet present and evolving market demands. BC Transit plan and deliver transit services that meet local land use and growth priorities, while furthering the development of safe, healthy communities and a sustainable environment. Compensation is an important tool used by BC Transit to attract, motivate and retain executives with the requisite skills, experience and commitment necessary to achieve the organization's strategic and business goals.

Compensation Philosophy

The goal of BC Transit is to provide a competitive, fair and equitable total compensation program for its executives with a focus on pay for performance. Compensation programs are designed to attract, retain and motivate executives while encouraging a results-oriented system where pay is linked to successful performance and the demonstration of leadership behaviors in support of the Corporation's strategic goals and organizational priorities.

The following principles guide executive compensation at BC Transit:

- **Focus on Business:** All components of executive compensation programs must be consistent with BC Transit's strategic goals and organizational objectives while reflecting the financial realities and service delivery requirements of the Corporation;
- **Pay for Performance:** Performance will be measured annually through the performance goals and management assessment system which is directly linked to the 3-year business strategy and the annual operating plan through key performance indicators determined by the Board of Directors;
- **External Market Competitiveness:** Executive positions will be compensated at a level comparable to other Crown corporations with similar roles and of similar size and complexity and with consideration given to the broader relevant Canadian market. Pay levels will be set at the 50th percentile of the market, based on regular survey data;
- **Internal Equity:** Salary ranges will be consistent with the relative internal value of each BC Transit executive position. Internal values are determined by an ongoing job evaluation analysis of the responsibilities and accountabilities of positions;
- **Individual Equity:** Will be achieved by ensuring that the actual salary awarded within the respective salary range reflects increasing levels of competence and individual performance.
- **Governance:** The Executive compensation program and structure is approved by the Board of Directors. Annual remuneration for the Chief Executive Officer (CEO) is governed by the Board and based on the achievement of specified performance objectives and achievements. All other executive compensation is approved by the Board after recommendation by the (CEO).
