

2014/2015 BRITISH COLUMBIA RAILWAY COMPANY COMPENSATION DISCLOSURE

BACKGROUND

British Columbia Railway Company (BCRC) is a Crown corporation incorporated under the British Columbia Railway Act.

BCRC's primary mandate is to support the Pacific Gateway Transportation Strategy 2012-2020, by acquiring, holding and managing railway corridor and strategic port lands and making related infrastructure investments to provide benefits to the Province. Specifically:

- BCRC retains ownership of all former BC Rail railway lands and track infrastructure and is responsible for the management of its long-term lease with CN Rail.
- BCRC retains ownership of two strategic port terminal lands and is responsible for the management of its long-term leases with Kinder Morgan and Squamish Terminals.
- BCRC retains ownership of the Port Subdivision, the 24-mile railway line accessing the port terminals at Roberts Bank and is responsible for maintaining the track infrastructure and managing all train operations for CN, CP and BNSF to service Deltaport Terminal and Westshore Coal Terminal.
- BCRC's subsidiary, BCR Properties Ltd., is mandated to acquire and retain ownership of strategic lands which support port terminal operations, and also continues its mandated disposition of all non-railway and non-port related surplus property holdings.

On April 1, 2010, the shares of BCRC were transferred from the Province to the British Columbia Transportation Finance Authority (BCTFA), resulting in BCRC becoming a wholly-owned subsidiary of the BCTFA, under the management control of the Ministry of Transportation and Infrastructure ("MoTI"). BCRC remains a self-supporting commercial Crown corporation and retains its legal and legislative authorities, assets and agreements.

BCRC'S COMPENSATION PLAN

Established within the Public Sector Compensation Guidelines, BCRC's approved Compensation Plan (the "Plan") identifies salary ranges that take into account: annual salary progression within the pay scales, employee performance, and individual career planning objectives. The Plan is also used to address retention issues and control salary costs from year to year. BCRC uses external professional Human Resources Consultants to analyze comparative markets for benchmarking compensation, benefits, and perquisites for all employees.

The Plan is designed to meet the following key objectives:

Retain Qualified Employees

BCRC established competitive salary ranges based on market data, a competitive benefits package and positive work environment in order to retain qualified employees.

Externally Competitive

As a commercial Crown Corporation, BCRC salary ranges take into consideration the local, provincial and/or national rates of pay in both the private and public sectors. Determination of salary ranges is done through participation in annual salary surveys, analysis of prevailing market pay rates and adjustments within salary ranges as appropriate.

Internally Equitable

Positions are evaluated based on market (pay) data from salary surveys. The basis for selecting market data is position comparison, determined by comparing the duties and responsibilities of the BCRC position with the best match of the survey positions. They are matched on content, not necessarily title. Several factors are considered to establish and maintain internal pay equity among employees. These factors include applicable work experience, education, appropriate certifications, performance, and consistent application of pay policies and practices.

BCRC'S PENSION PLAN

Effective July 14, 2004, BCRC no longer offered a Pension Plan to its employees. All permanent full time employees are eligible for an RRSP with employer contributions at a level equivalent to the value of the former BC Rail Ltd. registered pension plan.

BCRC PAY PHILOSOPHY

Established within the Public Sector Compensation Guidelines, the salary ranges within the Plan for each position reflects the organization's pay philosophy. BCRC sets its competitive target market at the 50th percentile or median of the comparative market. This means that the midpoint of BCRC salary ranges approximates the median of the market. There have been no changes to BCRC's approved salary ranges since 2008.

EXECUTIVE COMPENSATION

In July 2012, the Crown Corporation Executive Compensation Policy was approved and Crowns were directed to make amendments to employment agreements to ensure that they were compliant with the new Policy.

In May 2013, BCRC amended the employment agreements with the Executives accordingly. These changes were implemented in October 2014, resulting in a nominal adjustment to total compensation.
