**School District 19**  
(Revelstoke)

Christina Zacharuk  
Interim President and CEO  
Public Sector Employers' Council Secretariat  
Suite 210, 880 Douglas Street  
Victoria, BC V8W 2B7

Dear Ms: Zacharuk:

This will confirm that the Board of Education of School District No. 19 (Revelstoke) is aware of the total compensation paid to executive staff during the 2014-2015 fiscal year and further, that we verify the amount of compensation paid was within the compensation plan as approved by the Board and as reported in the Summary Compensation Table.

Yours truly,

A handwritten signature in blue ink that reads 'Alan Chell'.

## **School District No 19 (Revelstoke) Public Sector Executive Compensation Report Fiscal 2014-2015**

The Board of Education encourages and adopts practices that enable the district to attract, retain, incent, and reward qualified, high-performing employees who are critical to the delivery of quality public education programs to students in School District No. 19 (Revelstoke).

A key component of this approach is the development and maintenance of a framework for executive and exempt staff compensation that is rational, defensible, competitive and able to be effectively administered.

### **Compensation Philosophy**

The Board's compensation philosophy aligns with the statutory system of exempt staff compensation administration in the K-12 public education sector and the BC Public School Employers' Association (BCPSEA) exempt staff compensation management plan (BCPSEA Policy 95-06, Compensation and Employment Standards for School District Employees Not Subject to a Collective Agreement).

The Board's philosophy is based upon a set of principles that guide development, maintenance, and decision-making. At its core is an integrated view of compensation and rewards — not only traditional, quantifiable elements such as salary and benefits (compensation), but also more intangible elements such as career opportunities, learning and career development, work challenge, and supportive culture (rewards). This total rewards model further integrates with plans that establish the Board's overall education, business, and human resources strategies and objectives.

Inherent in the Board's compensation philosophy are the following objectives:

- To attract and retain qualified, experienced, motivated, and high-potential employees who are committed to the Board's overarching goal of delivering a high-quality public education experience to our students.
- To support employees through the provision of meaningful career growth and development opportunities, and a performance-based organizational culture.

### **Labour Market Comparators**

Key to the compensation philosophy is the need to maintain a meaningful level of competitiveness with the external labour market. Consistent with industry standards, "labour market" is defined in the British Columbia Public School Employers' Association (BCPSEA) sectoral exempt compensation management plan (Policy 95-06, Compensation and Employment Standards for School District Employees Not Subject to a Collective Agreement) as:

- The recruitment pool for these employees
- The destination sector for these employees.

The following considerations guide articulation of the relevant labour market:

- Degree of recruitment from these jurisdictions
- Transferability of skills
- Comparability of qualifications and experience
- Comparability of authority and consequence of error.

For executive and exempt staff positions in the BC K-12 public education sector, the relevant labour market is:

1. Other BC school districts (primary labour market)
2. Other Canadian school districts (To the extent that BC school districts recruit from and lose employees to these jurisdictions, this segment of the labour market is weighted to Alberta and Ontario (and to a lesser extent, Saskatchewan) consistent with the industry-standard definition of labour market)
3. Other public sector organizations
4. Selected private sector organizations.

The Board's approach includes:

- Consideration of all components of the total rewards model.
- Consideration of the relevant labour market for compensation comparison purposes.
- Linking pay ranges to neutral, relevant factors (e.g., required skill level, required competencies, job content, required qualifications).
- Ensuring appropriate relationships exist between positions in the district's compensation hierarchy.
- Considering the ways in which appropriate organizational and individual performance measures may be linked to the administration of the compensation system.

In balancing external competitiveness with internal equity, the Board typically has determined that the reference point for executive and exempt total compensation ranges from the 50<sup>th</sup> to the 100<sup>th</sup> percentile of the relevant comparator labour market.

The Board's total compensation package for executive staff is comprised of the following elements.

### **Cash compensation**

Total cash compensation includes annual base salary and monthly (*or annual*) vehicle allowance (*or leased vehicle or employer-provided vehicle, etc.*).

- Annual base salary

Annual base salary is considered in the context of the total compensation package. Generally, base salary is targeted at the 50<sup>th</sup> to 100 percentile of the comparator labour market. The base salary structure is a single rate structure with the exception of the

Superintendent of Schools who had an incremental pay structure that recognized *experience*.

- Vehicle allowance

To facilitate the need to visit schools and other district worksites, other district worksites and education partners, the Board provides a monthly vehicle allowance to the Superintendent. The monthly vehicle allowance is set at a level that approximates the in district travel on an annual basis but is lower than the vehicle allowances provided to Superintendents and other senior managers in districts of similar size and geography.

Other senior management positions receive mileage allowances based on a district per-kilometer rate. This is not considered a taxable benefit.

- A professional development allocation is included in the contracts for all management staff and varies depending on the position.

### **Non-cash compensation**

The non-cash elements of the total compensation package include:

- **Health and welfare benefits**, such as basic medical, extended medical, dental, group life, short-term and long-term disability, employee and family assistance program, etc. consistent with such benefits as offered in the K-12 sector generally.
- **Pension benefits** — executive employees are enrolled in either the Teachers' Pension Plan or the Municipal Pension Plan.
- **Paid time off**, including an annual vacation entitlement of 30 days. Pursuant to the *Public Sector Employers Act*, carry forward of unused accumulated vacation is not permitted. If, however, the individual employment contract does allow for carry forward of unused accumulated vacation, then such vacation may be carried forward for one year only and at the end of that year, the unused accumulated vacation must be used in full, paid out, or a combination of the two.

In addition, executive employees receive additional days of paid time off annually, in addition to annual vacation entitlement, in recognition of attendance at meetings during evenings and weekends. This additional time off may range between seven (7) and ten (10) days per year.

- **Other vehicle-related payments**, including insurance and maintenance.

The Superintendent and other senior management are reimbursed, as necessary, for the additional cost of business insurance to their personal vehicles.

## Compensation Administration

The Board engages in consistent and ongoing administration of the compensation structure to ensure that reality matches philosophy and that equity is maintained. An ongoing system of compensation review ensures that total compensation levels are benchmarked externally against the appropriate labour market and internally against appropriate job evaluation criteria.

The Board works with BCPSEA to obtain information and advice relating to the executive and exempt compensation structures. In addition, the Board utilizes the BCPSEA *Report on Total Compensation Paid to Exempt Employees* — the results of BCPSEA's triennial survey of total compensation paid to exempt benchmark positions in BC public school districts as well as school districts in Alberta, Saskatchewan, and Ontario, and other relevant public sector employers.

### ▪ Annual base salary administration

The salary structure for the position of Superintendent of Schools is based on placement at the appropriate pay band in the structure reflective of labour market competitiveness and internal equity. Placement and progression through the steps on the pay band is dependent upon competency growth and performance. The maximum point on the pay band typically represents the job rate for the position, defined as the salary that should be paid to an incumbent who has established him/herself as meeting all the goals and expectations of the position in a fully satisfactory manner. New hires are generally not placed at the job rate on commencement of employment, although due to the key leadership roles and responsibilities, such individuals are generally recruited at a highly competent level and are often placed at the mid- to maximum point in the pay band reflective of the required competence, qualifications, and experience.

The decision whether to grant a salary increase is at the sole discretion of the Board. In determining whether a salary increase is warranted, the Board considers such factors as performance, competence, external competitiveness, and internal equity including the maintenance of appropriate salary differentials through the organization. Increases are considered within the Board's overall compensation budget.

The salary structure for the remaining senior management positions (Secretary Treasurer, Principals, District Principals and Vice-Principals) is a single rate structure, based on the premise that, at the outset of the employment relationship, the individual must be fully competent in all aspects of the position in order to effectively fulfill the duties and responsibilities of the position.

The decision whether to grant a salary increase for the Secretary-Treasurer is at the discretion of the Board and subsequent approval of the British Columbia Public School Employers' Association. In determining whether a salary increase is warranted, the Board considers such factors as performance, competence, external competitiveness, and internal equity including the maintenance of appropriate salary differentials through the organization. Increases are considered within the Board's overall compensation budget.

## **Accountability**

Underlying the Board's compensation philosophy and approach is the understanding that legal and regulatory mandates are considered a baseline for implementing any compensation plan or practice. Compensation administration in the K-12 public education sector currently operates within the following context:

- the *Public Sector Employers Act*, which establishes the legislative policy framework for exempt staff compensation administration in the public sector
- the BCPSEA exempt staff compensation management plan (Policy 95-06, *Compensation and Employment Standards for School District Employees Not Subject to a Collective Agreement*), which is an approved compensation plan under the legislation
- the provincial government Management Compensation Freeze, implemented in September 2012.

Under the current compensation administration system in the K-12 sector:

- the Board of Education is solely responsible for the establishment and maintenance of compensation levels for the position of Superintendent of Schools. As elected school trustees, we are accountable to our public and therefore ensure that we adhere to proper human resources practices with respect to executive and exempt staff compensation.
- the Board must submit proposed compensation adjustments for all other executive and exempt positions in the district to BCPSEA for review and approval prior to implementation.

The table is populated with the Executives you reported last year.

Indicate if they were employed for a full fiscal year in 2014/15 in that position and if they are in the SEC database. If they were not employed for a full fiscal year in the given position, please fill in columns J to L. If they changed roles in your organization, enter their new job title in column F and details of the change in column K and in notes.

If the Named Executive Officer (NEO) is not in SEC there will be coloured cells in columns (a) and (i). They must be added to SEC.

If an employee has changed roles, ensure that they are updated in the SEC database <https://pscrlrs.gov.bc.ca/SEC/legon.aspx>

You should report the top 5 executives in your organization who have an annualized base salary rate of \$125,000 or more, even if the salary paid this year is less than \$125,000. \*SEC is the Senior Employee Compensation database. Compensation reporting through SEC is required for all employees who have a base salary of \$125,000 or more, no matter what their role in the organization.
