CORE PRINCIPLES

Total Compensation

Compensation is planned, developed, communicated and administered as a total rewards package as defined below:

- **Alignment** – to the University's goal of attracting, retaining, and engaging the best-qualified employees that align with the values and culture at TRU. In addition, to the degree possible, the University will recognize relevant total compensation plans afforded to employees governed by collective agreements.
- **Performance** – to support and promote a performance based organizational culture, compensation adjustments reflect individual and team based performance contributions to the overall institution's goals.
- **Competitive salary** – it is the objective of the University to pay its' employees' salaries that are sufficiently competitive in the job market to attract and retain high caliber talent.
- **Differentiation** – differentiation in salaries or overall compensation is reflective of differences in the scope of the position, and/or due to superior individual contributions.
- **Equity and Fairness** – the pay ranges and classification of positions within those pay ranges will ensure equal pay opportunity for work of equal value. Individual pay within the pay ranges is responsive to the need for external market competitiveness.
- **Affordability** – within the institution's financial planning framework and mandate.
- **Accountability** – compensation decisions are objective and based upon a clear and well-documented rationale that demonstrates the appropriate expenditure of public funds.
- **Transparency** – programs are designed, managed and communicated in a manner that ensures the program is clearly understood by employees and the public.

EXECUTIVE COMPENSATION POLICY

Policy

The guiding principles of the compensation program for executive officers of Thompson Rivers University are as follows:

General Principles

Responsibility for determining compensation for the President and Vice-Chancellor is determined by the Board of Governors within the guidelines approved by the Government of British Columbia. The President's base salary is established upon appointment. The employment contract takes into consideration salaries paid at other comparable Canadian Universities.

The compensation for the remaining senior executives is determined by the President and Vice-Chancellor and is within the approved salary structure. TRU total compensation plans for excluded executive employees require approval from the University's Board of Governors, University Public sector Employers' Council (PSEC) and the University Public Sector Employer's Association (UPSEA) prior to implementation.

- Compensation levels must achieve a balance between fair value for work and the University's ability to pay.
- Compensation levels reflect a measurement of job worth based on pay equity principles and a systematic evaluation based on a composite of the education, experience, responsibility for results, teamwork, stakeholder service and delivery, problem solving and decision making and leadership required to perform the work.
- Compensation levels must be competitive within the external market from which it recruits. The external market includes local, provincial and national public and private sector employers.

Relationship to Performance

Other than general salary increases, adjustments to compensation are based on clearly defined individual and organizational goals that are reviewed annually.

Compliance with Legal Obligations

Compensation policy and practices comply with the statutory obligations of the Employment Standards Act, the Human Rights Act, the Public Sector Employers Act and any other employment related legislation.

Compensation on Termination

There is no notice or pay in lieu of notice for termination from the University for cause. When an executive officer is required to discontinue his/her appointment for any reason other than cause and returns to his/her former position within the University, no notice or pay in lieu of notice is paid. Termination of employment from the University for reasons other than cause will be compensated consistent with the Public Sector Employers Act, the Employment Termination Standards Regulations and prevailing legal values for executive termination.

The maximum amount of notice upon termination without cause for executive officers (non-inclusive of vacation owed) is eighteen months as prescribed by the Employment Termination Standards regulation (B.C. Reg. 379/97).
