

Online Duplicate Resolution Process

Step By Step Instructions for District Offices

Using your web browser navigate to the SLD home page at www.bced.gov.bc.ca/datacollections. Click on the "Verification and Secure File Upload Access" link in the left hand menu.

After you click on the Secure File Upload Access link you are brought to the SLD Team's welcome message. Once you have read the current message click on the 'Enter' button as seen in the screenshot below.

• Ministry Home • Government of British Columbia

EdAccess

Welcome to SLD Web

TSW-3000

What's New

- **Current Data Collection:** February 1701. **Files Due:** February 20, 2009. **Please note:** All schools and districts may access this program during the February data collection period.
- Passwords for SLD Web are set to expire every 90 days. You may be immediately required to change your password. Please follow the steps to create the new password and you will be able to access the system. If you do not know your password you can either choose to [answer your reminder question](#) or send a request via [web form](#) to the ministry. If you are a first time user and do not know your user-id, it is the facility code for your school provided by the ministry. If you have any questions, please contact PENS.Coordinator@gov.bc.ca.

Please note

- Sunday mornings between 6:00 am and 12:00 pm are regular scheduled system change windows. This means the 1701 verification program may be unavailable during those hours.

Cheers,
The Data Collection Team

Once logged on you will see this Main Menu.

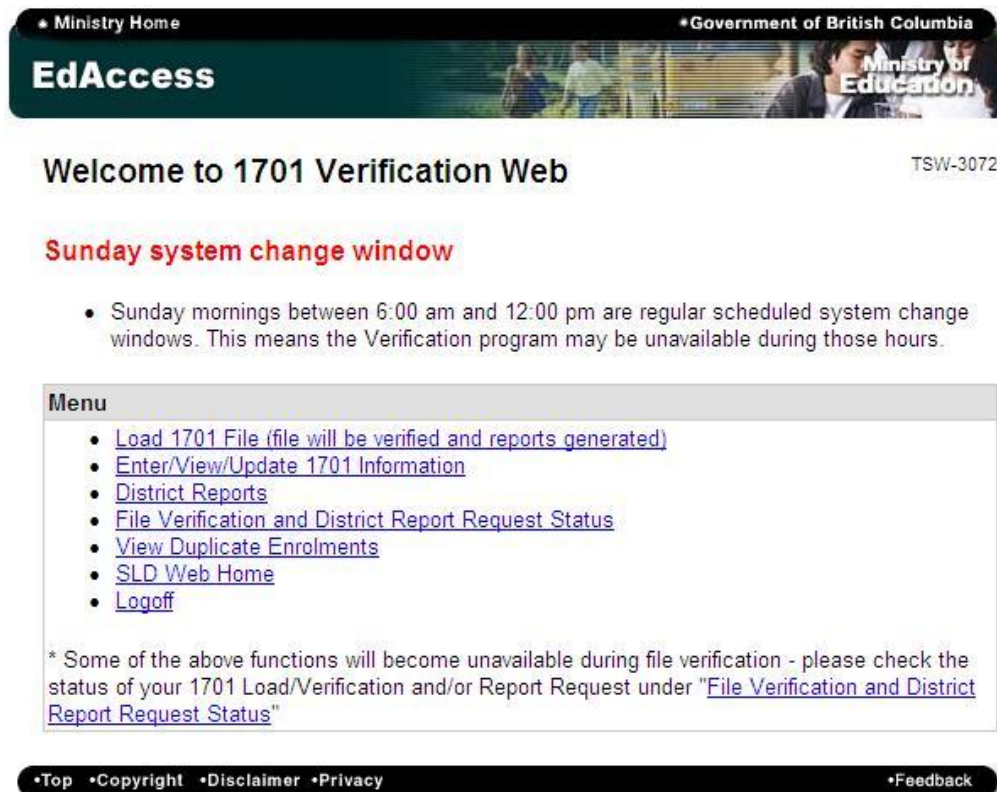

The screenshot shows the EdAccess main menu. At the top, there is a navigation bar with "Ministry Home" on the left and "Government of British Columbia" on the right. Below this is a banner with the "EdAccess" logo and a photograph of students. The main heading is "Secure SLD Web Access" with the ID "TSW-3039". A "Menu" box contains the following links:

- [1701 File Load and Verification Functions](#)
- [Verify Class Size & Composition Data](#)
 - [Show All Classes With 30+ Students](#)
- [Change Password](#)
- [Change Reminder](#)
- [Logoff](#)

At the bottom, there is a footer with "Top", "Copyright", "Disclaimer", "Privacy", and "Feedback" links.

Click the [1701 File Load and Verification Functions](#) link which will bring you to the following screen.

The screenshot shows the 1701 Verification Web page. At the top, there is a navigation bar with "Ministry Home" on the left and "Government of British Columbia" on the right. Below this is a banner with the "EdAccess" logo and a photograph of students. The main heading is "Welcome to 1701 Verification Web" with the ID "TSW-3072". A red heading "Sunday system change window" is followed by a bullet point:

- Sunday mornings between 6:00 am and 12:00 pm are regular scheduled system change windows. This means the Verification program may be unavailable during those hours.

A "Menu" box contains the following links:

- [Load 1701 File \(file will be verified and reports generated\)](#)
- [Enter/View/Update 1701 Information](#)
- [District Reports](#)
- [File Verification and District Report Request Status](#)
- [View Duplicate Enrolments](#)
- [SLD Web Home](#)
- [Logoff](#)

A note at the bottom states: "* Some of the above functions will become unavailable during file verification - please check the status of your 1701 Load/Verification and/or Report Request under "[File Verification and District Report Request Status](#)"".

At the bottom, there is a footer with "Top", "Copyright", "Disclaimer", "Privacy", and "Feedback" links.

Click the [View Duplicate Enrolments](#) link and you will see a page similar to the following.

• Ministry Home
• Government of British Columbia

[Back](#)

•Top •Copyright •Disclaimer •Privacy •Feedback

For each record you will see the PEN, student name, gender, and birth date. In the school column you can see the phone number, ministry code, and name of both schools along with the FTE and grade that they have reported. Next to the phone number for each school is the abbreviation "REG" indicating that the student is currently registered in both schools.

There are two basic views you can choose from using the links at the top right of the list. [View Unresolved](#) is the default view and shows all unresolved records which have not been released at the school or district level. As shown below, [View All](#) allows you to see all unresolved records along with any records you or one of your schools have released to another school or district.

Filter By

Using the “Filter By” drop down list you can narrow the view down to the various Duplicate Types: “Within Public School Districts”, “Between Public School Districts” and “Between School Systems”. Choosing “All” allows you to see all three types in one list (the default view). (Be aware that clicking the [View All](#) link will not show you all records unless you have also chosen “All” from this drop down filter.)

Printable Reports

To the right of the “Filter By” drop down you will see two links to PDF files. These allow you to view and/or print the “Allowable Duplicates” and “Duplicates Not Allowable” reports you would traditionally have received via email. Scroll to the bottom of the page and you will see a link to “Download as an MS Excel file”. This option is useful for districts wishing to retain a final copy of duplicate resolutions. These are provided for your reference if needed.

Releasing a Student*

To release a student simply highlight the “REG” line of the releasing school and click the “Release” button to the far right of the student record. This simultaneously removes the record from the “unresolved” lists in both districts and/or schools allowing the other district and/or school to confirm that you have released the student to them. (They may need to refresh their browser to actually see this.) All related schools/district offices can still view the record in the [View All](#) view. The releasing district will see an “Unrelease” button next to records they have released as seen in the screenshot above. (School level accounts cannot “unrelease” students once they have released them and will need to contact their district office to have this done.)

When viewing a record that has been released there is some more information at your disposal. In the example below you can see that John Doe was released from Williams Lake Secondary on Jan 16 of 2009. You can see that he was released by the district office as indicated by the code 02700000. If the student had been released at the school level you would see the school code here instead of the district code.

Filter By: [All](#) [View Allowable Duplicates](#) [View Not Allowable Duplicates](#) [View Unresolved](#) / [View All](#)

PEN	Student	Sex	Birth Date	School
109138131	DOE, JOHN	M	1990-12-09	02727069 Williams Lake Second 0.6250 12 2009/01/16 02700000 250-392-6284 REL 02009010 Stanley Humphries Se 0.8750 12 250-365-7735 REG

Claiming a Student

If you wish to claim a student from another district or system you will need to contact the other district and/or school and have them agree to release the record on their end. You will be able to confirm that this has been done as illustrated above. (Again, you may need to refresh you browser before seeing this change.)

There are some instances where the ministry will lock a record prohibiting any school or district from releasing the student. This would usually be due to one of the scenarios noted below or because further documentation was provided to the ministry confirming where the student should be registered.

**If you are attempting to resolve a duplicate involving one of the following scenarios you would not use the above process.*

- *The “student” identified is actually two different students*
- *The student is cross enrolled in a DL school in which they were incorrectly reported at a grade level other than 10 through 12 or SU.*

In either of these cases you must use the “Incorrectly Identified as Duplicates” form found here:

<http://www2.gov.bc.ca/assets/gov/education/administration/kindergarten-to-grade-12/data-collection/september/dupform.pdf>
