2. Please give a brief description of new initiatives implemented by school districts for French second language programs.

This year marks the beginning of our film program where our French Students use their language skills to produce a variety of short live action and stop action films. The medium allows them to express their understanding of the language and nuances of French culture in a unique and highly visible way. The program begins by giving students lessons in the technical aspects of film production and also introduces literacy related ideas of story telling, plot and theme.
