

# Secondary Suites: What Works, What Doesn't?

Webinar #3: Date: Thursday January 30, 2014

Time: 1:00 – 2:30 p.m. Pacific Time

Join us for the third in a three-part webinar series focused on affordable market housing in British Columbia. The series is sponsored by a group of provincial and industry housing stakeholders.

Many families across the province struggle to find housing they can afford. At the same time, employers face challenges attracting employees when housing costs are high. This webinar series explores the affordability challenge in BC and shares ideas to consider in your own community.

In our third webinar, we explore the at-times contentious issue of secondary suites. We start with an overview of what is permitted by the BC Building Code, and then hear directly from two local governments as they share their challenges, setbacks, solutions and successes with secondary suites.
