Describe Plans your organization has for continuing to minimize your GHG emissions

We plan to replace the boiler system in the administration building over the next few years which will complete the upgrades in all of our facilities. We plan to install a DDC system in one school and upgrade the DDC system in the administration building which will provide DDC coverage in the entire district. We will continue to increase the use of electronic meetings and the requirement to carpool wherever possible. We will increase the requirement to double side copying and the use of more centralized printing at each site. We will be making a concerted effort in having the lights turned off in all rooms that are not being used for a period of time.
