

## Coming Soon!- Launch Webinar - Introducing EDX/Self Service Functionality for SMARTTool

**Placeholder for Wednesday, November 26 at 1:30pm -3:00 pm — You'll be introduced to SMARTTool's new EDX/Self Serve functionality.**

*This will enable SMARTTool users to: use self-serve screens to manage their SMARTTool configurations; and enable the electronic eXchange of their energy data between SMARTTool and BC's major utilities — FortisBC and BCHydro. The webinar will provide a broad overview of the new functionality, plans for training, things you should do in preparation, opportunities for questions,... **LiveMeeting Invitations will be sent soon.***

## Congratulations to the 2014 PowerSmart Award Winners!

The Power Smart Excellence Awards are a bi-annual, province-wide recognition program and event that recognizes BC Hydro's best-in-class energy-efficient customers, retail partners and trade allies.

In particular we would like to recognize PowerSmart Leaders BC Ferries, ICBC & Richmond School District and finalist Cowichan Valley, Surrey and Delta School Districts, as well as UNBC, BCIT, VIHA for

- Continuously prioritizing energy management in every aspect of their business.
- Consistently meeting or exceeding their own rigorous energy-saving targets, and
- Institute a culture of energy and environmental sustainability within their organizations.

You can read more at the [2014 PowerSmart Excellence Award website](#)

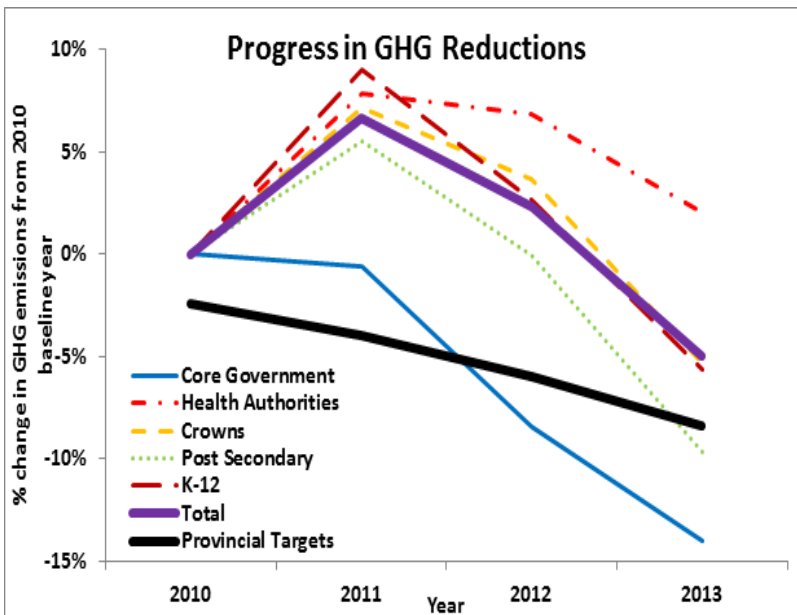

## Climate Insights 101 education series – new course!

**Discover** what is causing climate change. **Interpret** what it means for BC's future climate. **Learn** how governments can help slow the rate of change and help society adapt

The new online course is entitled **BC Climate Impacts & Adaptation**. It has been developed and peer-reviewed by world-leading scientists from British Columbia, and has BC-specific content.

BC Climate Impacts & Adaptation is a must for those involved in environmental protection, forestry management and wildfire prevention, community health, agriculture and energy infrastructural planning.

The courses are available for free on the [PICS website](#).

\*Note the Provincial Targets line continues on to 2020 for a 33% reduction. This graph only goes to 2013 where the Provincial Target line has been interpolated to show a 8.4% reduction.

## 2014 CNG Symposium on

**DECEMBER 3 2014 at the Westin Bayshore in Vancouver**

This all-day event will be an opportunity to network, collaborate and learn about key themes around carbon neutral operations. This year's event will focus specifically on exploring ways for PSOs to achieve substantive GHG emission reductions.

Invitations have been sent out, so be sure to check your email. If you have not received an invitation yet, please [contact us](#).

**CNCP Questions?** Please contact your Sector Lead.
