## Summary

British Columbia's (B.C.'s) agrifood and seafood industry includes primary production in agriculture, aquaculture, commercial fisheries and the processing of food and beverages.

## Value of B.C.'s Agrifood and Seafood Industry

- ▶ Sales: \$12.3 billion, up 5.9 percent over 2013
- ▶ Total 2014 Sales include:
  1. Primary Production Agriculture Farm Cash Receipts: **\$2.9 billion**
  2. Aquaculture and Commercial Fisheries Landed Values: **\$0.8 billion**
  3. Food and Beverage Manufacturers Shipments: **\$8.5 billion**

## Sector Highlights

*Totals do not add due to rounding.*

### PRIMARY AGRICULTURE

Climatic conditions in the province make it possible for B.C.'s farmers to grow well over 200 commodities. Total farm cash receipts from the sale of crops, including grains, oilseeds, tree fruits, berries, grapes, field and greenhouse vegetables, floriculture, nursery, forage and other crops, amounted to just over \$1.4 billion in 2014, up 2.5 percent over 2013 and up 11.8 percent over the previous five year average. Total livestock receipts, from the sale of cattle, hogs, poultry, eggs, dairy, honey and other animals and animal products amounted to nearly \$1.5 billion, up 7.7 percent over 2013

and up 13.2 percent over the previous five year average.

In 2014, B.C. producers led the nation in sales of blueberries, cranberries, sweet cherries, raspberries, and apricots.

Seventeen of B.C.'s crops ranked second in national sales: floriculture products, nursery products, greenhouse peppers, greenhouse tomatoes, mushrooms, greenhouse cucumbers, grapes, lettuce, peaches, garlic, pears, Brussels sprouts, plums/prunes, nectarines, parsley, squash/zucchini and spinach.

### AQUACULTURE AND COMMERCIAL FISHERIES

Aquaculture farm gate sales, from farmed salmon, clams, oysters, scallops, and other cultured shellfish, finfish and marine plants, totaled more than \$0.4 billion and commercial fishing landed values totaled just over

\$0.4 billion. B.C. producers led the nation in sales (in 2013 – the most current national data available) of cultured salmon, wild salmon, halibut, rockfish, skate, dogfish, hake, tuna, other wild crabs, farmed clams, oysters & scallops.

### FOOD AND BEVERAGE PROCESSING

The province's food and beverage manufacturing sector is among the largest in the province, generating just over

\$8.5 billion in sales in 2014, an increase of 7.2 percent over 2013 and 12.1 percent over the previous five year average.

## B.C.'S Top 30 Commodity Receipts

Rank	Commodity	2013 B.C. Receipts (\$'000)	2014 B.C. Receipts (\$'000)	2013 Canada Receipts (\$'000)	2014 Canada Receipts (\$'000)	B.C. Share of 2014 National (%)	B.C. Rank in 2014 National <sup>5</sup>

## B.C. Agricultural Land Management Practices, Census 2011

Land Usage Type	Farms Reporting	Hectares
Total number of farms	19,759	2,611,382
Weed control on summer fallow land, chemical only	45	1,059
Weed control on summer fallow land, tillage only	488	12,017
Weed control on summer fallow land, tillage and chemical combination	115	4,760
Use of herbicides	4,209	172,607
Use of insecticides	2,310	41,480
Use of fungicides	2,125	28,632
Use of commercial fertilizer	6,543	301,089
Use of lime	1,184	7,464
Soil conservation – crop rotation	4,257	na
Soil conservation – rotational grazing	5,443	na
Soil conservation – winter cover crops	1,601	na
Soil conservation – plowing down green crops	1,955	na
Soil conservation – buffer zones around water bodies	3,167	na
Soil conservation – windbreaks or shelterbelts	3,858	na
Total land prepared for seeding	6,055	223,136
Tillage incorporating most crop residue into soil	3,727	88,076
Tillage retaining most crop residue on the surface	1,296	71,594
No-till or zero-till seeding	1,548	63,106
Total use of irrigation	7,304	111,139
Irrigated field crops	628	11,485
Irrigated hay and pasture	3,005	73,128
Irrigated vegetables	1,183	4,287
Irrigated fruit	3,164	19,456
Other irrigated areas	657	2,783

Source: Statistics Canada. Adapted from Table 001-0009, CANSIM database (accessed July 2015).

1 Cultivated area includes bearing and non-bearing area.

2 Conversion factor used: one bushel of apples equals 42.0 pounds.

Farm Gate Values represent remunerations obtained at the "Farm Gate" and are concerned with gross returns to growers during the period in which the crop is grown.

Source: Statistics Canada. Tables 001-0013, 001-0006, 001-0009 and 002-0001, CANSIM database (accessed August 2015).

1 Degree of dependency on insect pollinators (in fractions).

2 Fractional proportion of all pollinators (honey and bumble bees)

3 Annual Crop Value attributable to honey bee and bumble bee pollination.

F Too unreliable to be published

\* Note: Due to the unavailability of Farm Gate Value, Farm Cash Receipts have been used instead.

\*\* Note: Bumble bees and honey bees used in greenhouse pepper pollination

\*\*\* Note: Only bumble bees are used in greenhouse tomato pollination.

Farm Gate Values represent remunerations obtained at the "Farm Gate" and are concerned with gross returns to growers during the period in which the crop is grown.

Farms reporting in Transition	23	26
Farms reporting Uncertified	753	na
Farms Reporting	880	na
<b>Animals or Animal products (Meat, Milk, Eggs, etc.)</b>		
Farms reporting Certified	86	107
Farms reporting in Transition	12	34
Farms reporting Uncertified	1,720	na
Farms Reporting	1,817	na
<b>Other (Maple syrup, Herbs, etc.)</b>		
Farms reporting Certified	63	na
Farms reporting in Transition	8	na
Farms reporting Uncertified	264	na
Total Farms Reporting	333	na

**Source:** Statistics Canada. *Census of Agriculture, 2006 and 2011*.

<sup>1</sup> The total number of farms reporting organic products for sale does not equal the sum of the farms reporting in each category because a farm could be counted in more than one category.

**Note:** In Census 2006 producers were asked to identify commodities grown that were certified, in transition, or uncertified; and in Census 2011, producers were asked to report only those products that were certified or in transition to be certified organic production.

<sup>1</sup> Includes deferred grain receipts and liquidation of deferred grain receipts.

<sup>2</sup> Includes mushroom and potato receipts.

<sup>3</sup> Farm cash receipts (FCR) represent the sale of agricultural commodities, program payments received from government agencies, and payments received from private crop and livestock insurance programs within the calendar year. The method for establishing FCR is based on the system of National Accounts. As such, farm-to-farm sales between provinces are included as are all sales outside the sector, while all inter-farm sales within a province are excluded.

na – not available.

Totals may not agree due to rounding

**Farm Cash Receipts (FCR)** represent the sale of agricultural commodities, program payments received from government agencies, and payments received from private crop and livestock insurance programs within calendar year. The method for establishing FCR is based on the system of National Accounts. As such, farm-to-farm sales between provinces are included as are all sales outside the sector, while all inter-farm sales within a province are excluded.

**Farm Gate Values (FGV)** represent remunerations obtained at the "Farm Gate" and are concerned with gross returns to growers during the period in which the crop is grown.

Totals may not agree due to rounding

**Farm Cash Receipts (FCR)** represent the sale of agricultural commodities, program payments received from government agencies, and payments received from private crop and livestock insurance programs within calendar year. The method for establishing FCR is based on the system of National Accounts. As such, farm-to-farm sales between provinces are included as are all sales outside the sector, while all inter-farm sales within a province are excluded.

**Farm Gate Values (FGV)** represent remunerations obtained at the "Farm Gate" and are concerned with gross returns to growers during the period in which the crop is grown.

<sup>1</sup> Includes farm operators involved in one or more unincorporated farms (with gross operating revenues of \$10,000 or more) or incorporated farms (with gross operating revenues of \$25,000 or more). The unincorporated sector consists of individual tax filers who reported positive gross farm income or non-zero net farm income on their Canada Revenue Agency (CRA) T1 General, Income Tax and Benefit Return. The incorporated sector consists of all corporations classified as engaging in farming activity (50% or more of their sales come from agricultural activities) that reported total sales of \$25,000 and over on their CRA T2 Corporation, Income Tax Return.

<sup>2</sup> Includes Feedlots.

## Average Operating Revenues and Expenses, by Farm Type in B.C.

**Source:** For years 2009 and prior: Adapted from Statistics Canada. Tables 203-0002, 355-0005, and 203-0013, CANSIM database (accessed August 2014). For years 2010 and later: Adapted from Statistics Canada. Tables 203-0021, 355-0005, and 203-0013, CANSIM database (accessed August 2013) and Catalogue no. 98-310-XWE 2011002.

<sup>1</sup> Prior to 2010, Bulk and Other Food purchases represent the difference between Total Food Purchases and Purchases from Stores and Purchases from Restaurants.

<sup>2</sup> Due to changes in methodology, Cansim Table 203-0002 was terminated in 2010 and replaced by CANSIM table 203-0021. As a result, the independently reported Purchases by B.C. Residents of Alcoholic Beverages from Stores and from Licensed Premises, and the Purchases of Tobacco have been replaced with Total Tobacco Products and Alcoholic Beverages.

<sup>3</sup> The total in 2010 and subsequent years is not comparable with years prior to 2010 due to changes in survey methodology.

na – not available.

**Note:** As at August 2015, the most current data available is for the year 2013.

# Per Capita Consumption of Selected Foods in Canada

Consumption <sup>1</sup>	2009	2010	2011	2012	2013	2014	5 Yr. Avg. 2009-2013	2014 vs. 2013 % Change	2014 vs. 5 Yr. Avg. % Change

<sup>1</sup> Effective with the latest (April 2013) release of this data, Chained GDP estimates now use 2007 as the base year and the time series are currently available back to the base year (2007) only. The process of chaining takes into account fluctuations in price which will occur over time. In addition, chaining preserves the original growth rates within sectors and industries of the economy.

<sup>2</sup> Excludes Animal Aquaculture (NAICS 112500)

<sup>3</sup> Source: GDP estimates for Animal Aquaculture (NAICS 112500) provided by B.C. Stats Sept. 8, 2015. (These estimates are no longer being produced by Statistics Canada.)

<sup>4</sup> Estimated based on GDP for Fishing, Hunting and Trapping (NAICS 114000).

## Data Sources

Production, farm cash receipts, manufacturing shipment values, and employment data sourced from Statistics Canada.

Precipitation data sourced from Environment Canada: [http://climate.weatheroffice.gc.ca/advanceSearch/searchHistoricData\\_e.html](http://climate.weatheroffice.gc.ca/advanceSearch/searchHistoricData_e.html)

Specific industry data obtained from industry associations, where necessary.
