

FREP RSM Training Process Map for Implemented Resource Values

- 2009/10 training related projects:
1. training video and photo gallery
 2. awareness group training package
 3. trainers' package (field cards, spare protocols, field equipment, etc.)
 4. FREP e-seminars to supplement background and professional training on various resource values. E.g. Science behind the indicators.

* Mentoring training and QA site visits are often combined to maximize travel and resources. The QA site visit data are not shared with district staff at the times of conducting mentoring.
