NOTICE TO ALL LEXIS USERS

Re: LEXIS - Log Exemption Information System - Service Interruption

The LEXIS system will be unavailable from Thursday, November 24th at 1:00 pm until approximately Friday, November 25th at 4 pm to accommodate an upgrade to the system.

This upgrade encompasses several enhancements and efficiencies in LEXIS for both industry users and staff, as well as an updates the common coast species and end use combinations. See attached Coast Species and Sort Code Labels document for reference. Many of the efficiencies achieved here will contribute directly toward achieving several goals outlined by the ongoing Coast Lean Log Export Project currently in place.

We apologize both for the short notice as well as for any inconvenience the interruption may cause. Please forward any comments or inquiries directly to Judith.Elkins@gov.bc.ca, or at 250.387.8352.

Regards,
