

Interior Camps (non-remote) List Effective July 1, 2016

Notes:

- Camps identified on this list are for the sole purpose to assign a CAMPV (i.e. average volume of logs directly related to the net costs associated with the camp) for non-remote camps as per the Interior Appraisal Manual definition.
- This list does not supersede the interior appraisal manual requirements. A camp must meet the definition as per the IAM to qualify for a camp cost estimate in an appraisal. New camps not already on this list must be approved by Area timber pricing staff.
- This list of camps/volumes will be updated as required. A camp's average volume will be updated annually.

Area	Non-Remote Camp Name	Average/-- (m ³)
North	Babine	328,911
North	Bear Lake	--
North	Charleston	--
North	Chetwynd	214,135
