VOL 1N0

Dear Mr. Reimer;

Re: Amendment to Permit M-200 Approving Main Embankment Buttress

Your request to construct a Main Embankment Buttress and addition to the perimeter buttress approved subject to the attached permit conditions.

Your attention is drawn to the attached conditions, which form an integral part of your approval for this project. You are also reminded that previous conditions remain in effect, including conditions requiring soil salvage and stockpiling, and the use of only non-potentially acid generating waste rock for construction activities.

Please attach this amendment to your M-200 permit.

Yours truly,

S. or / Al Hoffman, P.Eng.
Chief Inspector of Mines
