

Claim Amalgamation

Amalgamate means to join 2 or more cell claims into one cell claim.

Before you start:

- You will need to know the title numbers of the cell titles for amalgamation.
- If you are acting as an agent, you must have been granted amalgamation authorization from each recorded holder.
- Exploration and development work performed on the cell claims prior to the registration of the amalgamation **cannot** be registered after the amalgamation is completed; such work should be registered on the cell claims prior to the amalgamation or it will not be acceptable for assessment credit.
- An amalgamation is **not** the same thing as the former Notice to Group provision that was repealed in January 2005.
- Please ensure that you understand all of the conditions before you register an amalgamation. **Once registered, the amalgamation cannot be cancelled.**
