DEPARTMENT OF MINES

RE O. IN C. recommending that the Bridge River mineral reserve be amended to cover an area to the 2140-foot level rather than the 2157-foot level.

The B.C. Electric Company has agreed to this change. This change will remove the tunnel of the Congress Mine (2141 feet) from the area under reserve at the present time.

A handwritten signature in dark ink, appearing to be 'G.H.', is located in the lower right quadrant of the document. The signature is written in a cursive style with a horizontal line underneath.
