OIL AND GAS DIVISION

OGD-13-04

SUBJECT: Revised Lease Continuation Guidelines posted

The Petroleum and Natural Gas Titles Branch has replaced the Lease Continuation Options Summary document with a Guide to *Petroleum and Natural Gas Act* Lease Continuations. The guide is located [here](#).

The guide clarifies the requirements for demonstrating eligibility under the different lease continuation provisions in the *Petroleum and Natural Gas Act* (the Act). The guide also includes information about land plats and zone specific retention.

The guide does not go into detail about the geotechnical requirements for a section 58(3)(a) application under the Act. This information can be found in the Recommended Technical Package Contents for Section 58 applications guide located [here](#).
