

FLNRO Policy Regarding the application of S.A.F.E. as an eligibility to bid or enter into contracts Dec 22, 2015

RANGE BRANCH (RB) Appendix D

This section applies to RB work including RB work discharged by regions and districts to further the goals and objectives of RB except as otherwise specified in this appendix.

“In Scope” Contracts

- Ecosystem Restoration – are considered forestry type contracts - stand modification, layout, prescriptions and treatments including prescribed burning.
- Consulting or QA contracts for ecosystem restoration that would plan or influence when, where, what and how ecosystem restoration is undertaken.

“ Out of Scope Contracts

- Rangeland Plants Inventory - clipping forage, inventory plants
- Invasive Plants – weed spraying, hand pulling weeds, weed survey/inventory
- Installation of cattle guards (activities are for range management purposes and not driven by road construction and maintenance needs)
- Repair or installation of fencing (activities are for range management purposes and not driven by road construction and maintenance needs)
- Consulting or QA contracts for “out of scope” work

Exemption Authority (for RMB contracts)
