

Message from the College of Physicians and Surgeons of British Columbia

The College of Physicians and Surgeons of British Columbia appreciates the work of provincial experts and the collaboration of many stakeholders in compiling a single provincial source of reliable information regarding the diagnosis and management of novel H1N1 influenza. Successful management of pandemic influenza is dependent upon timely dissemination of relevant information to those who need to know. We strongly encourage your participation in subscribing to the updated features of this website to ensure that the physicians who manage influenza-like illness (ILI) are conversant with the management and treatments listed.

Dr. Heidi Oetter, Registrar

Dr. W. Robbert Vroom, Deputy Registrar,
CPSBC liaison to pH1N1 Clinical Advisory Committee
