FORM A – NEW CERTIFICATE OF APPROVAL

This application is solely for those facilities seeking first-time approval to bill the British Columbia Medical Services Plan for provision of an outpatient medical service.

For all other applications, please review information available at: http://www.gov.bc.ca/diagnosticfacilitiescommittee

IMPORTANT APPLICANT INFORMATION

Any publicly or privately-owned Diagnostic Facility in British Columbia intending to bill the British Columbia Medical Services Plan (MSP) for outpatient diagnostic services must obtain a *Certificate of Approval*, granted by the Advisory Committee on Diagnostic Facilities (ACDF) or the Medical Services Commission (MSC).

All *Certificates of Approval* are **site- and owner-specific and cannot be transferred or assigned**. If a facility is sold, the new owner must apply for a new *Certificate of Approval* in order to bill MSP for the provision of outpatient services.

Approval from the ACDF/MSC is required in order to bill MSP for the following outpatient services:

- Diagnostic Radiology
- Diagnostic Ultrasound
- Nuclear Medicine
- Polysomnography
- Pulmonary Function
- Electromyography (EMG)
- Electroencephalography (EEG)
- Electrocardiography (ECG)

Once an application is approved, the applicant must ensure all required facility accreditation and practitioner credentialing is in place prior to billing MSP for outpatient services.

HOW TO COMPLETE AND SUBMIT THIS APPLICATION

Applicants should complete the entire application, including the Conflict of Interest Declaration and Disclosure, in as much detail as possible. Additional pages should be added and uploaded along with an application, where additional space is required to provide complete information (please clearly indicate which questions/information you are providing additional information on). **When complete and authorized, the application must be submitted through the Ministry of Health's secure upload tool located at**: www.health.gov.bc.ca/diagnosticcommitteeupload

It is the responsibility of the applicant to demonstrate the need for the diagnostic facility or service(s) that are the subject of this application.

For detailed information on the ACDF and each part of this application, see the *ACDF User Guide to Applications for New, Expansion or Relocation of Private Outpatient Services*, at: http://www.gov.bc.ca/diagnosticfacilitiescommittee

For more information on the application and assessment process and the policies that govern it, it is recommended that all applicants review the *Policies and Guidelines of the Medical Services Commission's Advisory Committee on Diagnostic Facilities*, at: http://www.gov.bc.ca/diagnosticfacilitiespolicies

RATIONALE FOR APPLICATION

☐ Medical Need
☐ Health & Safety
☐ Other (please specify)

Please provide detailed rationale for application. Specify any gaps in current availability of this diagnostic service for the geographic area applicant diagnostic facility is expected to serve (as applicable). Append additional information as required.

IMPACT

If applicable, describe how the proposed service will improve the delivery and management of services at the applicant facility.

ACCESS

Identify and provide details of any access/availability issues impacting provision of service that this application will address.

UTILIZATION

Appropriate utilization of diagnostic services is a key focus of the Medical Service Commission (MSC). The MSC's Guidelines and Protocols Committee (GPAC) is responsible for developing provincial guidelines and protocols to support appropriate utilization. The MSC approved guidelines and protocols are available at: http://www.bcguidelines.ca/

If this application is approved, how will utilization of the diagnostic service provided be managed? Please provide details below.

- ☐ BC Guidelines and Protocols
- ☐ Clinical guidelines and protocols (e.g. Canadian Clinical Practice Guidelines)
- ☐ Utilization Methods

VOLUME ESTIMATES / CAPACITY

If application is approved, information pertaining to volume of MSP billable services will assist with establishing a facility throughput baseline. Baselines are used in the measurement of diagnostic facility throughput increase/decrease, for the purpose of monitoring for Significant Change. Throughput is defined as the volume of approved services rendered in a given time period.

For more information on the policy of Significant Change, see *Policies and Guidelines of the Medical Services Commission's Advisory Committee on Diagnostic Facilities*, posted at: http://www.gov.bc.ca/diagnosticfacilitiespolicies

Please estimate ***both*** the projected monthly volume of MSP billable service(s) applied for as well as the potential maximum monthly volume of MSP billable service(s) applied for (i.e. the volume of tests expected if application is approved and the maximum volume of tests that could be done based on facility and equipment capacity detailed in this application).

Category of Test(s) and/or Fee Items	Projected Monthly Volume of MSP Billable Services	Potential Maximum Monthly Volume of MSP Billable Services

STAFFING

As human resources are a key component of any diagnostic facility, the Advisory Committee on Diagnostic Facilities requires details of current/projected clinical and technical staffing levels.
