Sex: A British Columbia birth certificate is an extract of a person's (subject's) birth registration. Sex (M, F, or X) as it is recorded on a person's birth registration will be displayed on the certificate unless you indicate that you do not want it to be displayed by selecting that option on page 3. In order for sex to not be displayed on a birth certificate, the option on page 3 will need to be selected every time a request for a birth certificate is made.

Note: Any amendment to the birth registration will be reflected on a birth certificate however selecting the option for sex to not be displayed does not by itself change or amend a birth registration

Note: A birth certificate with no sex displayed is valid and recognized by the Government of British Columbia; however, the Government of British Columbia cannot guarantee that a British Columbia birth certificate with no sex displayed will be accepted by other organizations in British Columbia or by other jurisdictions.
