Re: Expression of Interest  
Alternative Victim Service Delivery Project  
Ministry of Public Safety & Solicitor General  
Addendum #1 - This forms a part of the above noted EOI posting.

---

TO ALL RESPONDENTS,

Following are some questions that have been received, with corresponding answers:

**Question:** Can a community that currently has no victim service program, but is located in a large service area where victim services is difficult to access, be eligible to respond to this Expression Of Interest?

Yes. A community or community agency can respond to this Expression Of Interest, as long as the community identified in the response, is not receiving direct victim service supports and does not host a victim service worker in the community.
