WEEKLY INCIDENT REPORT Aug 07 - 13, 2017

DANGEROUS GOODS - CODE 2

On 09 August, a semi and a car were involved in a MVI in Vanderhoof in which there were 4 fatalities. A spill of diesel leaked out onto the roadway and into a nearby creek. The incident resulted in the highway being closed for several hours. The incident was raised to Code 2 (urgent status) by the Ministry of Environment Response Officer due to potential for heightened political and media attention.

On 11 August, a transport truck flipped over on the highway near Donald BC. Reports were that some unknown red chemical was spilling out from the truck and into the roadway.. Police, Fire and Ambulance as well a chemical emergency response team responded and it was determined the material was paint. Incident was raised to a Code 2 (urgent status) by MOE due to potential for heightened political and media attention.

INTERFACE FIRE

On 08 August, a task number was generated for the 2017 Fire Season for INAC SEA Region for monitoring purposes of wildland interface fires which may affect INAC communities in the region.

On 08 August an incident was generated to support response to the Tobacco Plains First Nations in regards to the Tobacco Plains Fire N11605 in the SEA region.

On 09 August an incident was generated to support response to the McCormick Creek Fire (N51634) out of Salmo which resulted in Central Kootenay Regional District (CKRD) issuing evacuation alert.

On 10 August an incident was generated to support response to the Patterson Creek Fire (K41657) out of Spallumcheen. A reception centre was opened to accept evacuees impacted by this wildland interface fire.

On 12 August an incident was generated to support response to the Bishop Bluff wildland interface fire (C10830) out of the Bulkley Nechako Regional District (BNRD).

On 12 August an incident was generated to support response to the Kokanee Creek wildland interface fire (N71691) out of the Central Kootenay Regional District.

On 13 August an incident was generated to support response to the Canim Lake wildland interface fire (C41710) A tactical evacuation was ordered due to rapidly spreading fire in the area.
