

Dear LEH Hunter:

You are receiving this letter because you are a successful applicant for a LEH Moose hunt in Zone A of 5-04, Zone B of 5-04, or MU 5-05.

On June 26, 2014, the Supreme Court of Canada (SCC) granted the Tsilhqot'in Nation a declaration of aboriginal title. The map in Appendix A shows an area that includes the declared title area. As a result of the SCC decision, the status of these lands has changed and they are not publicly available for hunting at this time.

There is a substantial portion of your LEH hunt zone that is **outside the declared title area** (see map below in Appendix A) and is still accessible for you to exercise your LEH authorization to hunt Moose. At this time and as a result of the SCC decision, the Province advises you **not to enter** Tsilhqot'in title land.

Please contact the Fish and Wildlife Branch at 250-387-9771 or fishandwildlife@gov.bc.ca if you have any questions about your LEH authorization.

Thank you for your cooperation and continued support as we work with the Tsilhqot'in Nation to fully understand the scope and implications of this decision.

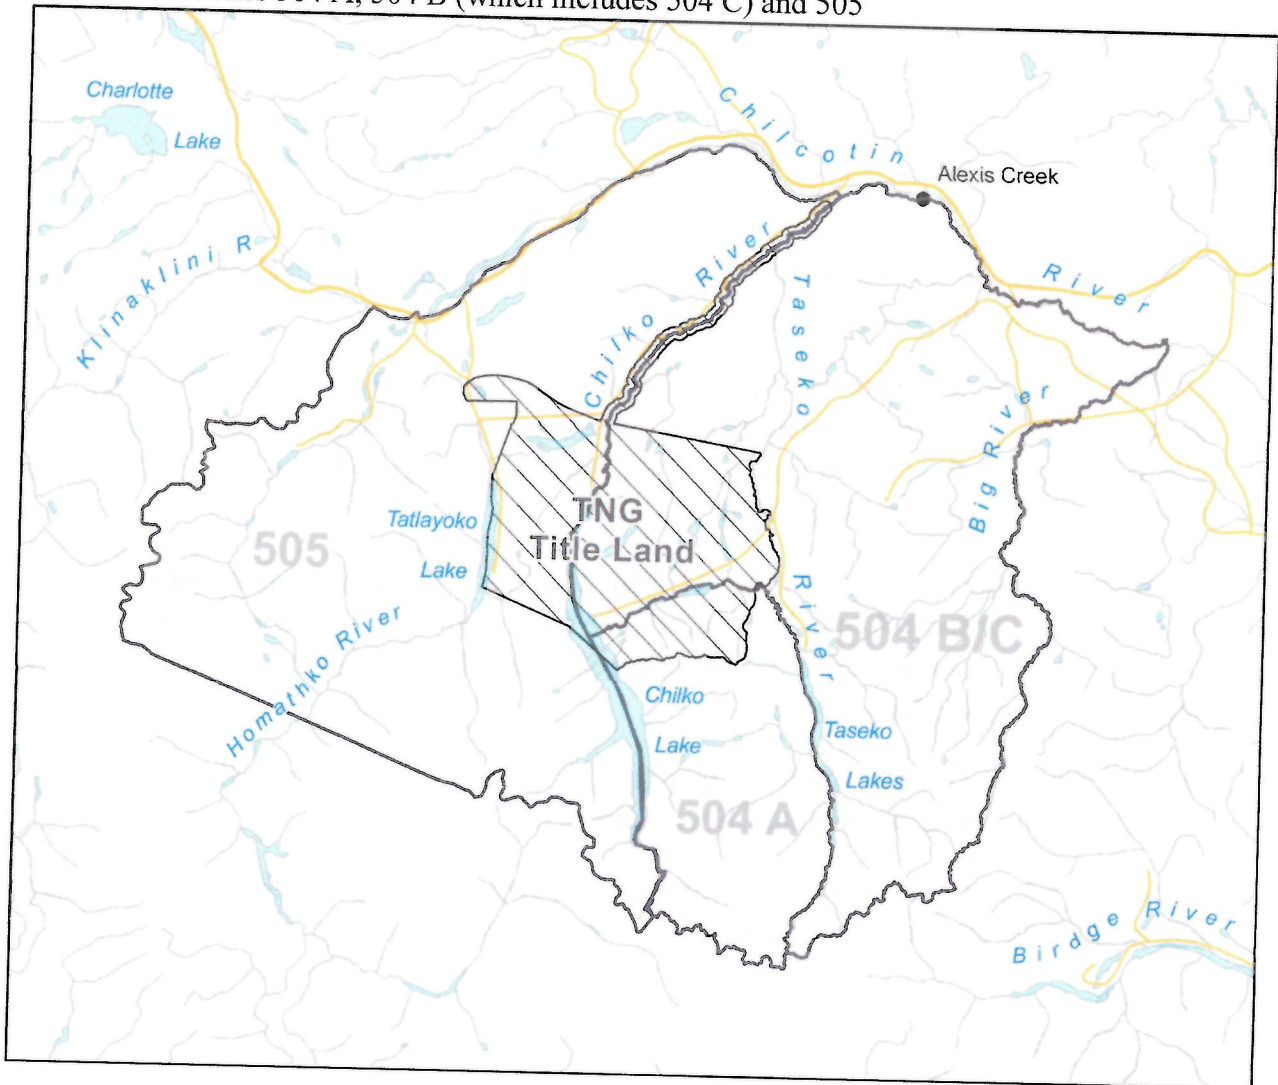

Sincerely,

A handwritten signature in black ink, appearing to read "J. Psyllakis", written over a horizontal line.

Jennifer Psyllakis, Director
Fish and Wildlife Branch
Ministry of Forests, Lands and Natural Resource Operations

Appendix A

Moose LEH zones 504 A, 504 B (which includes 504 C) and 505

*Note: the TNG Title boundary depicted in this map is approximate and may differ slightly from the Title area granted by the SCC.
