

Where do Housing Costs Come From?

A Developer's Inside Peek

Webinar #2: Date: Thursday November 28, 2013

Time: 1:00—2:30 p.m. Pacific Time

Join us for the second in a three-part webinar series focused on affordable market housing in British Columbia. The series is sponsored by a group of provincial and industry housing stakeholders.

Many families across the province struggle to find housing they can afford. At the same time, employers face challenges attracting employees when housing costs are high. This webinar series explores the affordability challenge in BC and shares ideas to consider in your own community.

In our second webinar, we get the inside scoop from developers on what contributes to the cost of building affordable housing. Get taken through a pro forma—a guide to calculating the costs of a development—to see how different elements make or break a project. And hear from a local government about the challenges they face in supporting affordable housing.
