## OPERATIONAL OR CAPITAL BUDGET ALLOCATIONS FOR CLIMATE RISK MANAGEMENT

## DID YOUR ORGANIZATION CONSIDER CLIMATE RISK OR TAKE ACTION TO MANAGE CLIMATE RISK?

## DOES YOUR ORGANIZATION HAVE A PLAN OR STRATEGY TO GUIDE CLIMATE RISK MANAGEMENT ACTIONS?

### HAS YOUR ORGANIZATION COMPLETED CLIMATE RISK ASSESSMENT OF ONE OR MORE OF YOUR BUILDINGS?

#### **NEXT STEPS**

### THE CLIMATE READY PUBLIC SECTOR PROJECT

- Goal: Enhance Ministries and PSOs ability to effectively respond to climate change impacts.
- Focus: Create a digital service platform
- Key purposes:
  - Centralized hub of resources and information
  - Mechanism for Ministries and PSOs to track and report on their annual climate adaptation information

# WHAT IS THE CLIMATE READINESS TOOL?

An assessment tool designed to help Ministries and PSOs in the province to self-assess, report and monitor progress on building climate adaptation capacity.

# WHY USE THE CLIMATE READINESS TOOL?

- One-window approach for collecting data into a centralized hub.
- Allows for self-assessment of gaps and vulnerabilities to climate change impacts.
- Allows for automated analysis of the information collected.
- Encourages an EDI lens when conducting self-assessments.

#### **Today's Breakout Room**

- Chance to connect on how to build climate resilience within PSOs
- Guiding questions:
  - What resources are you currently using to build climate resilience?
  - What is useful or not useful about them?
  - What do you still feel is needed?
