To enable comparisons with all B.C. public sector organizations, please provide the following data for your organization:

 How many Full Time Equivalent (FTE) employees were part of your organization as of Dec 31, 2017? 250

- 2. What was the total amount of floorspace (m²) in your organization (including occupied and unoccupied space, owned or leased) as of Dec 31, 2017: 16,257 (m²)
- 3. What was the primary use of that space (office, education, warehousing, health services, lodging, arts and recreation, other)? Health Services
- 4. How many motor vehicles did your organization own or lease as of Dec 31, 2017? 2 Buses

Briefly describe the top three actions taken by your organization in 2017 to reduce GHG emissions and/or improve sustainability from its operations:

Action
1. Continued eliminating the use of paper by utilizing software programs ie. Share Point (software
used to store all policies, procedures and digital forms.
2. Continue to install LED lighting.
3. Installed variable fan drives (VFD's) on 3 large air handling units as part of the energy conservation
management strategy.

Briefly describe plans your organization has for continuing to reduce your GHG emissions in future years:

Continue to move towards paperless invoicing.

2018 we will finish installing equipment as part of the energy conservation management strategy set forth by the energy analysis in 2016. This will include programing the DDC (Direct Digital Controls) system to work with the VFD's and controls install on compressors. We will install meters on the hydro and gas systems. The DDC will be outfitted will real time analytics so we can monitor and report on energy usage.

COLOMBIA
Describe any actions your organization took during 2017 to strengthen its ability to manage the likely effects of climate change in the coming years and decades (e.g., have assessed whether increased frequency of extreme weather events and/or long term changes in climate will affect your organization's infrastructure, its employees and/or its clients.)
Updated emergency response plans and provided training to staff.
Retirement of Offsets:
In accordance with the requirements of the <i>Greenhouse Gas Reduction Targets Act</i> and Carbon Neutra Government Regulation, [Organization Name] (the Organization) is responsible for arranging for the retirement of the offsets obligation reported above for the 2017 calendar year, together with any adjustments reported for past calendar years. The Organization hereby agrees that, in exchange for the Ministry of Environment and Climate Change Strategy ensuring that these offsets are retired on the Organization's behalf, the Organization will pay the associated invoice to be issued by the Ministry in a amount equal to \$25 per tonne of offsets retired on its behalf plus GST.
