British Columbia provides Lil'wat Nation base level information and a short reasonable time (21-30 calendar day consultation period determined by the Parties) to comment. Limited follow-up.
<b>4. Expedited Consultation Process</b>	Where there is an imminent threat to a resource value (e.g. mountain pine beetle spread control) an expedited consultation process is undertaken.	Intense but short timeline (about 10 calendar days). A justification for shortening the period would be given by describing the imminent threat. May require a meeting.
<b>5. Normal Consultation</b>	Follow on "normal" track for consultation guided by up-to-date consultation policy. Meetings to resolve issues where possible and make decision in a timely manner.	Intent to follow this course in most circumstances. Usually a 30 – 60 calendar day consultation period. May involve meaningful discussion of accommodation options where appropriate. British Columbia will notify Lil'wat Nation of the final decision where requested by the Lil'wat Nation.
<b>6. Deep Consultation</b>	Use reasonable effort to inform in an accessible manner and to engage in full discussions around the proposed decision. Make reasonable efforts to accommodate where necessary. Preliminary assessments may indicate a significant Aboriginal Interest and a significant impact to that interest.	Would involve meaningful discussion of suitable accommodation options and interim solutions where appropriate. May require extended timelines. British Columbia will provide the Lil'wat Nation with the final decision and rational in writing.

- 1.14 The Parties may agree to increase or decrease the consultation level for a specific proposed Administrative and/or Operational Decision or Operational Plan where detailed Aboriginal Interest information is provided that indicates a different consultation level is appropriate.
- 1.15 Unless requested by the Lil'wat Nation, the Province is not obligated to inform the Lil'wat Nation of the Delegated Decision Maker's decision where the consultation level in respect of the proposed decision was level three (3) or lower.
- 1.16 Consultation in the "non-overlap areas": the Province will make a reasonable effort to conduct consultation only with the Lil'wat Nation in the areas of the Lil'wat Nation's Traditional Territory that has no overlaps with other neighbouring First Nations.
- 1.17 Lil'wat acknowledges the difficulty of precisely mapping the "non-overlap areas" and will be satisfied if a reasonable effort is made by the Province to satisfy the condition outlined in section 1.16.

<b>FOREST ACT ADMINISTRATIVE DECISIONS</b>							
1	Timber Supply Review (TSR) Allowable Annual Cut (AAC) Annual Allowable Cut Determination	Timber Supply Review	Chief Forester	Admin	Normal to Deep Strategic Nature	60 days	The Chief Forester must determine an allowable annual cut (AAC) of not more than 10 years. AAC is the amount of wood permitted for the Province to be harvested within a year. There are 4 steps for an AAC determination: Timber Supply Review (TSR) area analysis report and discussion paper, public review and AAC preliminary statement and summary of public input. Typically, an AAC process takes 29 months. The Province engages with First Nations in the determination of AAC and during the 4 phases of the AAC determination. The strategic nature refers to the complexity of the decision and because of this complexity the default consultation level will not likely exceed 60 days. The Thompson River and Cascades Districts have commented the Top process for the Newby TSA for more than 1000.
2	Allowable Annual Cut Appointment (TSA)	Timber	Minister	Admin	Normal to Deep Strategic Nature	60 days	The appointment process is a process of allocating the AAC volume to the various categories of forest agreements specified within 12 of the Forest Act and this process follows an AAC determination. The AAC determination will influence the amount of volume that can be allocated to various volume categories. Volume income categories include Forest Licence (FL), Non-Regulated Forest Licence (NRFL), British Columbia Timber Sale (BCTS), Timber Sale Licence (TSL), Wildlife Licence (WL), Community Forest Agreement (CFA), First Nations Wooded Licence (FNWL) and Forest Service Reserve (FSR). Strategic nature refers to the complexity of the decision and because of this complexity, the default consultation period will not likely exceed 60 days.  Image: <a href="http://www.the.gov.bc.ca/docs/forest/forest_agreement_brochure.html">www.the.gov.bc.ca/docs/forest/forest_agreement_brochure.html</a>
3	Allowable Annual Cut Disposition (TSA)	Timber	Regional Executive Director	Admin	Normal to Deep Strategic Nature	60 days	The disposition plan identifies how timber is to be disposed of. The decision is not a regulatory decision. Typically, the plan identifies competitive NRFL and other sources of NRFL. From time to time, the Regional Executive Director (RED) will ensure the disposition plan is consistent with and at least meets the AAC. The AAC determination and appointment decision will influence the disposition plan. Strategic nature refers to the complexity of the decision and because of this complexity, the default consultation period will not likely exceed 60 days.  The Kamloops Shuswap District anticipates a decision on a disposition plan for the Thompson TSA in the summer of 2013.
4	Timber Supply Review (TSR) Allowable Annual Cut (AAC) Annual Allowable Cut Determination	Timber Supply Review	Chief Forester	Admin	Normal to Deep Strategic Nature	60 days	After approving a timber supply plan, the minister may require the allowable annual cut authorized in the previous licence or agreement referred to in subsection (2) to be an amount that is justified according to timber supply analysis including: approved by the Chief Forester or the chief forester's designate.  The Kamloops Shuswap District anticipates a decision on the disposition of the Thompson River District and anticipates a decision on the Thompson RPA.  The Thompson River District anticipates a decision on the Thompson RPA.  Strategic nature refers to the complexity of the decision and because of this complexity, the default consultation period will not likely exceed 60 days.
5	Forest Licence	Timber	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	The disposition plan identifies competitive NRFL and other sources of NRFL. From time to time, the RED will ensure the disposition plan is consistent with and at least meets the AAC. The AAC determination and appointment decision will influence the disposition plan. Strategic nature refers to the complexity of the decision and because of this complexity, the default consultation period will not likely exceed 60 days.
6	New Regulated Forest Licence (NRFL) Issuance	Timber	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	Typically, NRFL applications are for timber sales, changes and changes to the conditions of a licence.
7	New Regulated Forest Licence (NRFL) Issuance	Timber	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	RED anticipates a decision on the disposition plan and appointment decision. The disposition plan and appointment decision will influence the disposition plan. Strategic nature refers to the complexity of the decision and because of this complexity, the default consultation period will not likely exceed 60 days.
8	Consolidation of volume based licence within TSA	Timber	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	RED anticipates a decision on the disposition plan and appointment decision. The disposition plan and appointment decision will influence the disposition plan. Strategic nature refers to the complexity of the decision and because of this complexity, the default consultation period will not likely exceed 60 days.
9	Subdivision of volume based licence within TSA	Timber	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	The minister may require a consolidation of volume based licence if the minister considers that decision would compromise forest management. With the subdivision of volume based licence, First Nations may be concerned about potentially their relationship and the sharing of sensitive cultural information with a post licence. Government is cognizant of the First Nations concerns and these concerns will be discussed during the licence transfer consultation process.
10	PL Replacement	Timber	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	The Minister must replace a licence within the licence date if a licence can be replaced if it does not meet the conditions of the licence such as new payment to the Crown. Bidding to the First Nations of a New Licensing Stand.
11	Transfer of AAC between TSA (S.19 of the Forest Act)	Timber	Regional Executive Director	Admin	Normal	60 days	Transfer of AAC between TSAs.

## **APPENDIX C**

### **Revenue Sharing Contribution Methodology**

#### **Traditional Territory Forest Revenue Sharing Component**

- 1.0 In each BC Fiscal Year that this Agreement is in effect, and subsequent to the release by the Minister of Finance of the previous BC Fiscal Year's public accounts, a summary document will be prepared of the Sea-to-Sky, the Sunshine Coast and the Cascades Natural Resource Districts forest revenue, defined as the total of stumpage, waste and annual rent payments received by the Crown for the previous 2 BC Fiscal Years. An average amount over 2 years will be calculated for the Sea-to-Sky, the Sunshine Coast and the Cascades Natural Resource Districts.
- 1.1 For the purposes of the summary document in section 1.0 of this Appendix, the stumpage payments from Lil'wat Nation's Forest License (if applicable) will not be included in the calculations of forest revenue.
- 1.2 The amount of the forest revenue attributed to the Lil'wat Nation's Traditional Territory will be calculated by determining the percent of Lil'wat Nation's Traditional Territory that falls within the Timber Harvesting Land Base in the Sea-to-Sky, the Sunshine Coast and the Cascades Natural Resource Districts, applied against the forest revenue described in section 1.0 of this Appendix. This calculation will prorate for overlapping territories of other First Nations.
- 1.3 The Traditional Territory Forest Revenue Sharing Component will be calculated by multiplying 3 percent of the forest revenue attributed to the Lil'wat Nation as described in section 1.2 of this Appendix.
- 1.4 If Lil'wat Nation is not receiving capacity funding for forestry consultation through a SEA or RA, then it will receive \$35,000 or the amount calculated in accordance with section 1.3, whichever is greater, which may be used by Lil'wat Nation as capacity funding to participate in the consultation process in accordance with section 6.0 of this Agreement.
- 1.5 For each BC Fiscal Year that this Agreement is in effect, the calculations outlined in sections 1.0 to 1.4 of this Appendix will be performed.

#### **Direct Award Tenure Forest Revenue Sharing Component**

- 2.0 Subsequent to the release by the Minister of Finance of the previous BC Fiscal Year's public accounts, a summary document will be prepared of Lil'wat Nation's Forest License **A82250** forest revenue, defined as the total of stumpage payments received by the Crown for the previous BC Fiscal Year.
- 2.1 The Direct Award Forest Tenure Revenue Sharing Component will be calculated by multiplying 35 percent of the forest revenue as described in section 2.0 of this Appendix.

- 2.2 For each Fiscal Year that this Agreement is in effect, the calculations outlined in sections 2.0 and 2.1 of this Appendix will be performed.

**Forest Revenue Sharing Transition**

- 3.0 The Parties agree that a transition to revenue sharing based entirely on Forest Revenue will be phased in over the Term.
- 3.1 For each BC Fiscal Year that this Agreement is in effect, a portion of the Revenue Sharing Contribution is calculated by adding the total of the Traditional Territory Forest Revenue Sharing Component to the Direct Award Tenure Forest Revenue Sharing Component for that BC Fiscal Year.
- 3.2 For each BC Fiscal Year that this Agreement is in effect, the remaining portion of the Revenue Sharing Contribution is calculated by determining the value of the payments that were made by British Columbia to Lil'wat Nation in any given full year under the *Lil'wat Nation Forest and Range Opportunity Agreement* ("the Annual Amount") and applying the following percentages to that Annual Amount:
- 3.2.1 2016/17 BC Fiscal Year: 40 percent;
- 3.2.2 2017/18 BC Fiscal Year: 40 percent; and
- 3.2.3 2018/19 BC Fiscal Year: TBD percent.
- 3.3 Notwithstanding section 3.2 of this Appendix, if the Revenue Sharing Transition Calculation for BC Fiscal years 2016/17 and 2017/18 under section 3.1 provides:
- (a) an amount calculated under sections 1.3 and 2.1 of this Appendix that is equal to or greater than the annual payments received under the *Lil'wat Nation Forest and Range Opportunity Agreement*, then Lil'wat Nation will receive the annual payments described by the Revenue Sharing Transition Calculation in section 3.1 for BC Fiscal Years 2016/17 and 2017/18; and
  - (b) an amount calculated under the Revenue Sharing Transition Calculations in sections 3.1 and 3.2 of this Appendix that is greater than the annual payments received under the *Lil'wat Nation Forest and Range Opportunity Agreement*, then Lil'wat Nation will receive an annual payment for BC fiscal Years 2016/17 and 2017/18 that is equal to the annual payment received under the *Lil'wat Nation Forest and Range Opportunity Agreement*.
