

What's New for Version 4.15 - March 29th, 2019

This release for ECAS includes changes for the implementation of new coast policy effective April 1st, 2019, as well as several bug fixes that have appeared since the last release:

- COAST – Effected changes to operating costs as outlined by Coast Policy update effective April 1st, 2019. For example:
 - Expired: helicopter single standing stem selection (HSS)
 - Expired: destumping for root disease control (DS)
 - Added: Barging (BG)
- INTERIOR - Enhanced the Interior pro-rating of Specified Operations for Scale-Based Appraisals.
- INTERIOR – Fixed the issue related to the old mandatory Isolated Cutting Authority error on Re-appraisals.
- INTERIOR – Repaired Save function on the ECAS65 Specified Operations screen for Miscellaneous specified operations on small AAC licences.
- INTERIOR – Fixed the Save function on the ECAS64 Log Transportation / Administration screen.
