Public Portal Guide

Introduction

BC Bid is an online marketplace where public sector organizations (including municipalities, school districts, health authorities, Crown corporations and the B.C. government) advertise opportunities for a wide range of goods and services contracts.

The BC Bid application is a key tool, supporting B.C.'s Procurement Strategy transformation goals. This application provides a modern platform for government sourcing projects, increases transparency, and makes it easier for businesses of all sizes to do business with the public sector entities.

The application is easy to navigate and allows users to complete many tasks online:

- Buyers can set up opportunities, communicate with team members and suppliers, and post and award contracts.
- Suppliers can subscribe to or renew e-Bidding accounts and opportunity subscriptions, view and respond to opportunities (some via e-Bids) and manage a dashboard of their opportunities and communicate with buyers.

This guide provides information to the public on how to explore the BC Bid application Public Portal and key pages.
