

Quarterly Report on Completed Drug Submission Reviews

Last updated January 2023

Overview

The *Quarterly Report on Completed Drug Submission Reviews* report is divided into three reports for each year¹:

1. The *Type, Timelines and Number of Completed Drug Submission Reviews, by Quarter* reports provide detailed information on the type of drug review, the target and actual timelines for each review, the total number of reviews, and the percentage of reviews that are completed and result in a PharmaCare coverage decision within the specific timeline for the given year.
2. The *Drug Review Decisions Summary* reports provide detailed information on the Ministry's coverage decision for each drug that PharmaCare has reviewed in the given year.
3. The *Patient and Caregiver Input Summary* provides information on the number of responses to the Ministry's call for patient, caregiver and patient group input for each drug that PharmaCare has reviewed in the given year. Responses are collected via the PharmaCare [Your Voice](#) website.
