Job Descriptions

Position Number: Benchmark Job #350

Ministry: Environment, Lands and Parks

Branch: Waste Management

Location: Prince George

Working Title: Regional Air Monitoring Technician

Level: Range 14 (Paid Range 15 per 13th Master.)

NOC Code: 2221

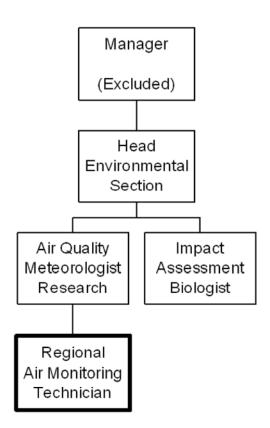

PRIMARY FUNCTION

To install and maintain a network of air quality and meteorological monitoring stations and provide air quality data from the stations to ministry programs, industry, agencies and the general public.

JOB DUTIES AND TASKS

- 1. Operates and maintains a regional ministry network of air quality and meteorological stations
 - a. inspects stations to ensure that all equipment is functioning to prescribed standards
 - b. operates, maintains and calibrates electronic monitors and data logging equipment
 - c. retrieves and reports data and makes an initial assessment to verify the validity and reliability of data collected
 - d. coordinates processes for testing and gathering air quality data by setting up and monitoring equipment
- 2. Performs quality control and inspects the operation of stations not operated by the ministry
 - a. inspects stations operated by non-ministry staff to ensure that they are within prescribed standards
 - b. audits and evaluates the data collected from non-ministry operated collection stations
 - c. trains others in the operation and maintenance of collection station equipment
 - d. assesses operators and identifies need for training
 - e. resolves problems relating to the timeliness and accuracy of air quality data collected
- 3. Reports on ambient air quality and meteorological conditions
 - a. monitors real time and recorded levels
 - recognizes potential problems
 - c. prepares data summaries for distribution
- 4. Reports on impacts of air emission on ambient air
 - a. conducts analysis of air emissions on ambient air
 - b. responds to complaints on air quality issues and initiates investigations of complaints
 - c. prepares meteorological dispersion models
 - d. writes summary reports and data summaries
- 5. Selects new air quality monitoring sites and installs new air monitoring stations
 - a. provides designs and budget estimates and recommendations to supervisor
 - b. identifies and selects sites
 - c. arranges use of properties and facilities

- d. provides installation and ancillary support
- 6. Performs other related duties
 - a. assists in aquatic and terrestrial sampling
 - b. answers relevant questions from the general public, operators and others
 - c. drives a light vehicle to field site operations
 - d. provides budget estimates for new equipment and/or programs

FACTOR	REASON FOR CLASSIFICATION	DEGREE	POINTS
1	JOB KNOWLEDGE	F	190
	Have a practical understanding of air quality measurement and meteorology to maintain a network of air quality/meteorological stations and verify applications to improve air quality measurement at the collection stations.		
2	MENTAL DEMANDS	E	150
	Judgement required to apply analysis and interpretation of air and meteorological data to collect and conduct quality control check using a combination of accepted methods and resolve quality control problems.		
3	INTERPERSONAL COMMUNICATIONS SKILL	С	30
	Discretion required to exchange information needing explanation to coordinate repairs, and respond to complaints on air quality issues.		
4	PHYSICAL COORDINATION AND DEXTERITY	D	22.5
	Significant coordination and dexterity to calibrate and adjust electronic monitors and measurement equipment to precise tolerances.		
5	RESPONSIBILITY FOR WORK ASSIGNMENTS	D	75
	Guided by general procedures or instructions, selects alternative course of action to coordinate repairs to test station equipment, establish new test sites, and to select components of monitoring programs.		
6	RESPONSIBILITY FOR FINANCIAL RESOURCES	D	22.5
	Moderate financial responsibility to formulate budget estimates for new air and meteorological monitoring programs requiring knowledge of operational equipment.		

FACTOR	REASON FOR CLASSIFICATION	DEGREE	POINTS
7	RESPONSIBILITY FOR PHYSICAL ASSETS/INFORMATION	D	22.5
	Significant responsibility to ensure the quality of data collected from monitoring devices where the timeliness and accuracy of readings is critical.		
8	RESPONSIBILITY FOR HUMAN RESOURCES	В	9
	Responsibility to formally train others in the operation and maintenance of testing stations.		
9	RESPONSIBILITY FOR WELL BEING/SAFETY OF OTHERS	В	10
	Limited care and attention to drive to air monitoring sites to conduct business, as the driver of convenience.		
10	SENSORY EFFORT/MULTIPLE DEMANDS	С	12
	Focused sensory concentration to frequently calibrate equipment, inspect data collections stations, prepare data summaries and develop dispersion models.		
11	PHYSICAL EFFORT	С	12
	Moderate physical effort is required to frequently stand and walk while gathering data from air monitoring sites.		
12	SURROUNDINGS	В	4
	Exposure to outdoor work in all weather conditions with shelter available on a regular basis.		
13	HAZARDS	В	4
	Limited exposure to hazards from driving on a regular basis to data gathering sites.		

Total Points: 563.5

Level: Range 14

Paid Range 15 per 13th Master.
