SERVICES SCHEDULE

The Project

1. TERM

Notwithstanding the date of execution of the Agreement, the Term of the Agreement starts when it is executed by the Recipient and delivered to the Province in accordance with section 18 and ends the earlier of three months after the date the Province makes the final portion of the Financial Contribution or December 31, 2022.

2. PROJECT

The Dormant Sites Reclamation Program (Program) accesses federal funding provided to the Province of British Columbia. The funding was established as part of the federal government's COVID-19 Economic Response Plan.

The Program offers opportunity for oil and natural gas service sector contractors in British Columbia to apply for a financial contribution to undertake and complete work on dormant site reclamation.

The Program also provides Indigenous peoples, landowners and local communities in British Columbia the opportunity to nominate dormant sites for reclamation.

Oil and gas field service companies and contractors based in British Columbia, with registration, office and operations in British Columbia are eligible to apply for funding under the Program.

Recipients that receive funding under the Program will undertake an Eligible Work Type in relation to a Dormant Site located in British Columbia

7. DELIVERABLES

The Project will be managed, and Financial Contributions will be provided to Recipients in three steps, which are as follows:

STEP 1:

Initial Payment A Recipient will be eligible to receive a payment of 10% of its reasonably estimated Eligible Costs upon delivery to and verification by the Province of the executed agreement between the Province and the Recipient and an Expenditure Summary with the following information:

- a. Detailed cost estimates for the Project, including description of the Eligible Work Type to be completed at each Dormant Site, intended sub-contractors, any major expenditures, and other relevant and material information
- b. A copy of the Contract with the Permit Holder that meets the following requirements:
 - Recipients must provide a copy of a valid contract with a British Columbian oil and gas activity Permit Holder that describes the allocation of the work relating to the specific Dormant Site and type of work to be completed on behalf of the Permit Holder.
 - The contract must be fully executed and in force, with no 'subject to' clauses relating to the Project

Note: the Permit Holder is responsible for ensuring the contractor has the skills, expertise, capacity, equipment and applicable insurance to conduct the work to meet all provincial laws and regulatory requirements.

The Province reserves the right to compare estimated costs provided by the Recipient to the deemed liability of the Site as per the BC Oil and Gas Commission's Liability Management Program and may use such comparison in application selection. If an estimated cost is higher than the deemed liability, the Province may require the permit holder to submit a site-specific liability assessment to the BC Oil and Gas Commission, and, where the Province determines in its sole discretion that such costs are not reasonable in the

circumstances the Province may disallow such costs as Eligible Costs and reduce the value of some or all of the Financial Contribution by an amount equivalent to the difference.

STEP 2:

Interim Payment A Recipient will be eligible to receive a payment of up to 60% of its Eligible Costs upon delivery to and verification by the Province of the interim Expenditure Summary. The interim Expenditure Summary must be delivered within the earlier of 60 days from the date the last work giving rise to the Eligible Costs was undertaken in relation to the Project or August 31, 2022, and must include:

- An interim Expenditure Summary describing how the Financial Contribution has been allocated and an explanation of any financial variances from any cost or estimate previously provided to the Province
- Number of hours of work generated and number of workers involved
- An officer's certificate from a senior officer of the Recipient's organization (such as a Chief Executive Officer or Chief Financial Officer) attesting to the correctness and completeness of the financial information provided.

Upon receipt of the interim Expenditure Summary and all other documents, required to apply for a Financial Contribution in relation to a Project, the Province will review the application within 90 days, and if the application meets the requirements of the Agreement, the Province will allow up to 100% of the Eligible Costs requested.

STEP 3:

Final Payment A Recipient will be eligible to receive a final payment of up to 30% of its Eligible Costs upon delivery to and verification by the Province of the Expenditure Summary. The Expenditure Summary must be delivered within the earlier of 60 days from the date the last work giving rise to the Eligible Costs was undertaken in relation to the Project or September 30, 2022, and must include:

- a. A Final Financial Report, including:
 - A final income and expenditure summary describing how the Financial Contribution has been allocated and an explanation of any financial variances from any cost or estimate previously provided to the Province
 - Number of hours of work generated and number of workers involved
 - An officer's certificate from a senior officer of the Recipient's organization (such as a Chief Executive Officer or Chief Financial Officer) attesting to the correctness and completeness of the financial information provided
- b. The Final Project Report as stated in Section 9 – Reporting Requirements

Upon receipt of the Expenditure Summary and all other documents required to apply for a Financial Contribution in relation to a Project, the Province will review

the application within 90 days, and if the application meets the requirements of the Agreement, the Province will allow up to 100% of the Eligible Costs requested.

2. The total Financial Contribution provided by the Province for the Project will not exceed 50% of the lesser of:
 - a. the total estimated cost per Eligible Activity per Dormant Site or;
 - b. the amount of Eligible Costs actually spent by the Recipient per Eligible Activity per Dormant Site.

In no event will the Financial Contribution exceed \$100,000 per Eligible Activity per Dormant Site.

3. The Province may provide a Financial Contribution less than the total amount requested by the Recipient if the Province determines, in its sole discretion, that any cost claimed by the Recipient in respect of such does not constitute an Eligible Cost.
4. Where applicable based on the Eligible Work Type, the Province will only release the Financial Contribution before receiving confirmation of either Abandonment or Certificate of Restoration if the Recipient supplies evidence of work completed in the form of a written report certified by a Qualified Professional registered in British Columbia.
5. If the Province reasonably believes that any information accompanying the application for a Financial Contribution is incorrect, missing, or is otherwise inadequate, a notification will be sent by the Province to the Recipient of the inadequacy. The Recipient must, within 30 days of receiving the notification, provide the further information to the requester.
6. The Province is not required to begin a review of any request for a Financial Contribution or subsequent application for Financial Contribution concerning the Project until the further information requested of the Recipient has been provided, and the Province is satisfied that no further information is required in order to review the application.
7. At any time during the Project, the Recipient must make all reasonable efforts to provide the Province evidence of company and worker experience in the Eligible Work Type related to the Project.

8. REGULATORY COMPLIANCE

1. Companies must maintain registered business status with BC Registries for the duration of the Project to remain eligible to receive a Financial Contribution under the Program.
2. Permit holders have their own site management and health and safety requirements for all contractors and personnel on their locations. As the sites are still in the care and control of each individual permit holder, service provider

oversight in the field will come from the permit holders as required under law and all regulations

3. The BC Oil and Gas Commission will apply all elements of British Columbia's existing regulatory framework as it applies to oil and gas activities in B.C. to any work performed under this Program. This includes all required permits, notices and consultation associated with the work.

9. REPORTING REQUIREMENTS

The Recipient must make all reasonable efforts to respond to ad-hoc requests by the Province for information on Project progress. The Recipient must also advise the Province immediately of any substantial events that could impact the Project timeline.

Interim Reporting:

- a. The Recipient must, no later than 30 days after applying for the 60% Financial Contribution, provide progress reports relating to each individual Dormant Site and Eligible Work Type, and progress made in achieving the results as set out in this Services Schedule.

 - ii. Number of sites with reclamation completed
 - iii. Number of reclaimed sites subject to Provincial law
 - iv. Number of well abandonments completed
 - v. Number of pipeline abandonments completed
 - vi. Number of sites receiving closure work
 - vii. Date of completion of work by site and by Eligible Work Type
 - viii. Submission of total timesheet hours for all workers by site and work type
 - ix. Submission of the total number of personnel who worked on the Project by site and Eligible Work Type
- c. All final reports submitted by the Recipient must be certified by a Qualified Professional (such as a Qualified Engineer, Professional Agrologist or Professional Biologist) attesting to the correctness and completeness of the information provided.
