

Sea-to-Sky Land and Resource Management Plan Major Amendments

Major Amendments are described under Section 6.3 of the S2S LRMP as: changes that require a major update to the plan but can range from being broad and comprehensive to narrow and contained. These revisions usually involve a high complexity of resource issues and may involve a change in a legislated land use designation. In the case where the major amendment is primarily to address First Nations' interest, this could entail a government-to-government approach to plan amendment(s) in consultation with the public. The decision to approve a major amendment rests at the executive level (Assistant Deputy Minister's Committee or higher authority).

The following Major Amendments have been approved:

Proposed Amendment

1. Section 5.3 *Conservancies*
 - The Conservancy Table on p. 117 is revised to include the Mkwál'ts Conservancy, having an approximate area of 3,744 ha.
 - Interim area-specific management direction is contained in the Agreement Regarding the Mkwál'ts Nt'akmen (Ure Creek Area) between the Lil'wat Nation and the Province of British Columbia, dated April 22, 2010. The final management direction will be contained in the Collaborative Management Plan for the Mkwál'ts Conservancy.
2. Map 12 *Conservancies*
 - The Mkwál'ts area is identified as a "Conservancy". Map 12 *Conservancies*, dated March 2008 is replaced by Map 12 *Conservancies*, dated May 2010 (attached).

Rationale

On April 22, 2010 the Province and the Lil'wat Nation signed an agreement resolving the land use conflict in the Mkwál'ts Nt'akmen (Ure Creek Area). On April 27, 2010 the Province introduced legislation to amend the *Protected Areas of British Columbia Act* to establish a new conservancy, to be called the Mkwál'ts Conservancy, over the Mkwál'ts Nt'akmen unresolved area within the Sea-to-Sky LRMP. This has come about after extensive discussions between the Province and the Lil'wat Nation.
