

3) PSO CCAR TEMPLATE

[Below is the 2022 PSO CCAR template. All text in grey italics is provided for the information/guidance of PSOs and should be deleted or replaced with information specific to your organization.]

PSOs have full ownership over the look and formatting of the PSO CCAR; you may adjust the template below to meet your organization's specific needs, so long as your PSO CCAR includes the Minimum Report Requirements noted above.]

2022 PSO CLIMATE CHANGE ACCOUNTABILITY REPORT

Title: Sd 10 2022 PSO Climate Change Accountability Report

Organization: School district 10 (arrow lakes)

PART 1. Legislative Reporting Requirements

[Information provided in this section will complete PSOs' legislative reporting requirements under the Climate Change Accountability Act (section 8.1) and the Carbon Neutral Government (CNG) Regulation. Part 1 must be completed in full by all PSOs, including Small Emitters.]

Declaration statement: This PSO Climate Change Accountability Report for the period January 1, 2022 to December 31, 2022 summarizes our greenhouse gas (GHG) emissions profile, the total offsets to reach net-zero emissions, the actions we have taken in 2022 to minimize our GHG emissions, and our plans to continue reducing emissions in 2023 and beyond.

Emission Reductions: Actions & Plans

Sd 10 has continued planning of all project to help reduce green houses gasses and lowering our carbon foot print. Time and effort are put into our planning for reductions of the ghg's.

A. Stationary Sources (e.g. buildings, power generation)

Sd 10 has been working on projects that help reduce emissions. New boiler upgrades and efficient heating/ cooling systems. We have also continued adding solar power to almost all our buildings. Our big projects involve engineers and I have them try to continue to improve our emissions.

B. Mobile Sources (e.g. fleet vehicles, off-road/portable equipment)

Sd 10 has purchase 3 electric busses and have had 2 on the road since the beginning of the year. This has helped with our diesel consumption. As we learn how far we can go on these buses, we have decided to purchase 1 more this coming year to add to another one of our routes. We have done a feasibility study and can add 2 more electric buses to our fleet to help with emissions. We now are looking at purchasing electric white fleet to phase out our other vehicles. Sd 10 is also looking into battery powered lawnmowers.

Carbon Neutral

C. Paper Consumption

Sd 10 has started to transition paper filing into electronic . Slow process but we are winning. We have discussed with schools using both sides of the paper and are looking at what percentage of recycled paper we are getting. This year was a huge reduction by using up old stock from the past years.

2022 GHG Emissions and Offsets Summary Table

[Please see [Appendix 1](#) for instructions on populating this table with the “CCAR 2022” CGRT Report. The table separates biogenic emissions (BioCO₂) from total emissions, as per international emissions reporting protocols. **Tip:** Print pages 9 to 11 of this document, or view in a split or new window (if you have more than one screen); these pages contain the instructions on how to acquire the data to complete the following table.]

[Organization Name] 2022 GHG Emissions and Offsets Summary	
GHG emissions for the period January 1 - December 31, 2022 <i>[See Appendix 1 for instructions on how to access your 2022 emissions data from CGRT. Cells A and B below are identified in Figure 1; cells C and D are identified in Figure 2.]</i>	
Total BioCO ₂	7.5
Total Emissions (tCO ₂ e)	382
Total Offsets (tCO ₂ e)	201
Adjustments to Offset Required GHG Emissions Reported in Prior Years	
Total Offsets Adjustment (tCO ₂ e)	0
Grand Total Offsets for the 2022 Reporting Year	
Grand Total Offsets to be Retired for 2022 Reporting Year (tCO ₂ e) <i>[must round to a whole number (no decimal places)]</i>	201 + 0
Offset Investment (\$) <i>[Grand Total Offsets to be Retired for 2022 Reporting Year x \$25 per tCO₂e]</i>	(201 + 0) x \$25

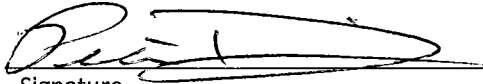

Retirement of Offsets:

In accordance with the requirements of the *Climate Change Accountability Act* and Carbon Neutral Government Regulation, School District 10] **(the Organization)** is responsible for arranging for the retirement of the offsets obligation reported above for the 2022 calendar year, together with any adjustments reported for past calendar years (if applicable). The Organization hereby agrees that, in exchange for the Ministry of Environment and Climate Change Strategy **(the Ministry)** ensuring that these offsets are retired on the Organization’s behalf, the Organization will pay within 30 days, the associated invoice to be issued by the Ministry in an amount equal to \$25 per tonne of offsets retired on its behalf plus GST.
