WHEREAS

British Columbia and the Tsilhqot'in Nation have agreed to a Shared Vision for the development of an interim cooperative land and resource management framework agreement and this Agreement supports that Shared Vision.

British Columbia acknowledges that Aboriginal Rights exist within the Agreement Area and that this Framework Agreement is a bridging step to a potential reconciliation of rights, titles and interests.

The Parties acknowledge the Memorandum of Understanding between the Nemiah Valley Indian Band (now Xeni Gwet'in First Nations Government) and British Columbia respecting Ts'il?os Park and that this Agreement does not affect its spirit, intent or provisions.

The Engagement Process enabled through this Agreement is intended to provide the Tsilhqot'in Nation and British Columbia with a clear and equitable process for land and resource management engagements on Crown land.

This Agreement is intended to result in more effective understandings of accommodation options and ways of resolving land and resource disputes among the Parties.

This Agreement commits the Parties to utilizing its provisions in order to achieve reasonable outcomes and respectful and meaningful approaches to Aboriginal Rights in the Agreement Area.

The Parties acknowledge the significance of facilitating Tsilhqot'in economic development in relation to fulfilling the vision of the Agreement.

The Parties will approach the application of the Engagement Process with perspectives informed by the laws, traditions and culture of the Tsilhqot'in Nation, and by the laws of British Columbia.

The Parties recognize that the successful implementation of this Agreement, and the building of cooperative working relations, will depend upon their ability and willingness to recognize, explore and resolve differences, which arise between them.

The Tsilhqot'in hold proven aboriginal rights in the Court Case Area declared by Mr. Justice Vickers in his judgment dated November 20, 2007 and as affirmed by the BC Court of Appeal in its reasons for judgment of June 27, 2012:

The Tsilhqot'in people have an Aboriginal right to hunt and trap birds and animals throughout the Claim Area (as defined in the trial judgment) for the purposes of securing animals for work and transportation, food, clothing, shelter, mats, blankets and crafts, as well as for spiritual, ceremonial and cultural uses. This right is inclusive of a right to capture and use horses for transportation and work,

The Tsilhqot'in people have an Aboriginal right to trade in skins and pelts taken from the Claim Area as a means of securing a moderate livelihood.

The Parties have agreed to approach the Court Case Area, including any settlement options, as a separate matter to be addressed in subsequent government-to-government discussions or a replacement Agreement.

Therefore, the Parties agree as follows:

Appendix A - Engagement Process

1.0 INTERPRETATION

- 1.1 The terms used in this Appendix have the same meaning as in the Tsilhqot'in Stewardship Agreement, except where otherwise indicated.

2.0 GENERAL ENGAGEMENT PROVISIONS

- 2.1 The Parties acknowledge the linkage between the environment and Aboriginal Rights related to land and resources. The intention within this Agreement is to develop a good understanding of the linkage between potential impacts to Aboriginal Rights and the ecological services that they depend on. To facilitate such an understanding, specific guidance regarding how information relating to the linkage between the environment and Aboriginal Rights related to land and resources may be reflected in the Engagement Process will be maintained by the Pathway Agreement Working Group and will be utilized by the Parties.
- 2.2 As a guiding principle, the Parties will strive to reach consensus for decisions made under this Agreement, utilizing the applicable Engagement Processes set out below, maintaining the focus on working together to make efficient and effective decisions, and where the Parties are unable to reach consensus may use the mechanisms set out in section 2.19 and 2.20.
- 2.3 When Provincial Agencies become aware that they will be receiving Applications from third party Applicants, they will make reasonable attempts to encourage those third parties to provide relevant information related to the Application. The Provincial Agencies will inform third parties of the Agreement and encourage third parties to contact the TNG to discuss any TNG land and resource policies that may assist the Engagement Process.
- 2.4 The Parties acknowledge that a positive relationship between third parties and the TNG will assist in achieving an effective Engagement Process under this Agreement.
- 2.5 Upon written notice provided by the TNG to the Province, an Engagement Request or Application that may otherwise have been received at a higher Engagement Level, may be submitted at a lower Engagement Level.
- 2.6 When an Originating Provincial Agency engages TNG under the Engagement Process, the Originating Provincial Agency will:
 - 2.6.1 determine the appropriate Engagement Level for the Application in accordance with the Engagement Process Criteria Table in section 10.0 of this Appendix based on:

- 2.6.1.1 the Engagement Zone the Application falls within (Step 1 of the Engagement Process Criteria Table); and
- 2.6.1.2 a determination of whether the Application is listed under Appendix E and thereby only requires notification, or is under Appendix F and thereby requires no notification (Step 2 of the Engagement Process Criteria Table); or
- 2.6.1.3 a determination of which set of criteria best describes the potential impacts associated with the Application (see Step 3 of the Engagement Process Criteria Table);
- 2.6.2 explicitly denote the appropriate Engagement Level on the Engagement Request; and
- 2.6.3 provide to the Tsilhqot'in Stewardship Department through the TNG Portal the Engagement Request and the appropriate Engagement Information in accordance with the Engagement Process Criteria Table.
- 2.7 If the information within a specific Engagement Request is not consistent with the Engagement Information corresponding with the appropriate Engagement Level, as outlined in the Engagement Process Criteria Table, the TNG will notify the Originating Provincial Agency by one Business Day following the Effective Start Date. The submission will be resubmitted by the Originating Provincial Agency with the appropriate Engagement Information at its convenience. The Effective Start Date will not be determined until the complete package is resubmitted to the Portal.
- 2.8 If an Application overlaps with more than one engagement zone, the majority of the Application area will determine which engagement zone applies, and the Engagement Level will be determined in accordance with the Engagement Process Criteria Table.
- 2.9 For Applications that are outside of the Agreement Area, east of the Fraser River and east of Zone A or B in proximity to the Fraser River that meet criteria levels 3, 4 or 5 in the Engagement Process Criteria Table in section 10.1 of this Appendix, Provincial Agencies will consult with, and where appropriate accommodate, the TNG where those Applications have the potential to impact the Fraser River or Tsilhqot'in Aboriginal Rights supported by the Fraser River within the Agreement Area at Engagement Levels 3, 4 or 5 respectively.
- 2.10 For clarity, where the eastern boundary of Zone A or B ends at the Fraser River, the Fraser River is included in Zone A or B respectively.
- 2.11 The Parties agree that the Effective Start Date of the Application will be the Monday following the submission. For greater clarity, any submissions received up until a Friday

at 4:30pm will be considered to commence the following Monday. If the Monday is not a Business Day, the Effective Start Date will be the next Business Day.

- 2.12 By 4:30pm on every Tuesday, the TNG Responsible Official will inform the Provincial Responsible Official if the TNG disagrees with any Engagement Level proposed by Provincial Agencies in the Applications submitted in the previous week. Where the Monday of that week is a statutory or TNG holiday, the deadline will be Wednesday at 4:30 pm. The TNG Responsible Official retains the ability to increase an Engagement Level for those Engagements in Engagement Zones B and C by a factor of 1 if the TNG and Provincial Responsible Officials do not agree on an increase to an Engagement Request.
- 2.13 The Provincial Responsible Official will notify the Originating Provincial Agency of any changes to Engagement Levels within 2 Business Days. The Effective Start Date for Engagement Requests that are changed remain the same as the original Effective Start Date.
- 2.14 The Parties agree that the Engagement Process requires the open and transparent sharing of both Provincial and Tsilhqot'in information. When gaps in the available information impede the fulfillment of work under an Engagement Level, the Parties will collaboratively seek a clear understanding of the information gaps and discuss strategies to fill those gaps with other available information as appropriate. The Engagement Process timeline may be paused should additional information beyond what is listed in the Engagement Process Criteria Table be required to facilitate Engagement. The decision to postpone and the duration of any postponements will be recommended by the Responsible Officials to the Decision Maker and such requests will not be unreasonably denied.
- 2.15 If an Application or Engagement Request falls within more than one Engagement Zone that includes Engagement Zone D, Provincial Agencies will consult with the Tsilhqot'in in accordance with constitutional and common law obligations consistent with section 3.5 in the Agreement. The TNG will not be required to use funding provided under section 4.2 - 4.3 of this Agreement to address Engagement Requests in Engagement Zone D.
- 2.16 The Parties acknowledge that there may be extraordinary circumstances where an expedited approach to the Engagement Process is required for the purposes of public safety or other emergencies. Engagement related to such circumstances may be addressed between the Responsible Officials on an expedited basis. Engagement will be undertaken between Responsible Officials. A submission to the TNG Portal will be required by the end of the Engagement Process to record the activity.
- 2.17 The Parties may establish specific committees to examine, explore and develop recommendations on various land and resource topics that are deemed relevant. Such

committees must be established with the joint approval of the Responsible Officials. Such approval will include a description of the objectives of the committee, scope, anticipated deliverables, accountabilities and duration for the work that any committee will undertake.

- 2.18 For greater certainty, Engagement Requests received prior to March 31, 2021 will be completed in accordance with the terms of the Tsilhqot'in Stewardship Agreement 2014 – 2021 Agreement Renewal.
- 2.19 Where consensus cannot be reached pursuant to the applicable Engagement Process set out for Engagement Levels 2, 3 or 4 of this Agreement, either Responsible Official may request the support of the Pathway Agreement Working Group co-chairs prior to the decision and within agreed timelines to attempt to resolve the conflict.
- 2.20 Where a decision is rendered under Engagement Levels 2, 3 or 4 of this Agreement that does not reflect a consensus outcome, either Responsible Official may request a review and written report, led by the Responsible Officials, detailing the areas of disagreement, options for addressing these areas and recommendations to achieve consensus in future decisions.

3.0 ENGAGEMENT LEVEL 0 AND ENGAGEMENT LEVEL 1

- 3.1 The Parties agree that with respect to Applications listed in the Level 0 Notification Table (Appendix F), Provincial Agencies are not required to notify the TNG.
- 3.2 The Parties agree that with respect to Applications listed in the Level 1 Notification Table (Appendix E), the Provincial Agency will notify the TNG as soon as practicable following the decision.

4.0 ENGAGEMENT LEVEL 2

- 4.1 After receiving an Engagement Request marked as Engagement Level 2, the Tsilhqot'in Stewardship Department will coordinate with Member Communities as required and may prepare a response to the Originating Provincial Agency within 20 Business Days from the Effective Start Date. The response may include any Aboriginal Rights related to the Application.
- 4.2 The Provincial Decision Maker may make a decision on the Application after the expiry of the 20 Business Days of the Tsilhqot'in Stewardship Department receiving the Engagement Request, unless the Originating Provincial Agency and the TNG agree to an extension of time for further Tsilhqot'in review, in which case, the Provincial Decision Maker may make a decision after the expiry of the extension period.
- 4.3 If the TNG provided comments in relation to the Engagement Request under section 4.1, the relevant Provincial Decision Maker or the Originating Provincial Agency will notify the

Tsilhqot'in Stewardship Department in writing of the decision made regarding the proposed Application subject to the Engagement Request under section 4.1 including any measures taken to respond to Aboriginal Rights raised during the Engagement Process within 14 Business Days of the date of the decision, or as soon as practicable.

5.0 ENGAGEMENT LEVEL 3

- 5.1 After receiving an Engagement Request marked as Engagement Level 3, the Tsilhqot'in Stewardship Department will coordinate with Member Communities as required and may prepare a response to the Originating Provincial Agency within 40 Business Days from the Effective Start Date. The response may include any Aboriginal Rights related to the Application.
- 5.2 The Provincial Decision Maker may make a decision on the Application:
 - 5.2.1 before the expiry of the 40 Business Days from the Effective Start Date if the TNG indicates in writing that it has no concern with, or no position on, the Application; or
