- 1.11 If a proposed Administrative and/or Operational Decision or Operational Plan is submitted to Chawathil First Nation and no response is received within the consultation period set out in section 1.10 of this Appendix for the consultation level applicable to the proposed Administrative and/or Operational Decision or Operational Plan, then British Columbia may proceed to make a decision regarding the decision or plan.
- 1.12 The Parties agree that:
- as set out in the table below (the "Matrix") there will be six (6) potential levels of consultation for a proposed Administrative and/or Operational Decision or Operational Plan;
  - subject to the List of Decisions, the appropriate consultation level for a proposed Administrative and/or Operational Decision or Operational Plan will be determined by reference to the criteria set out in the Matrix; and
  - the consultation period applicable to a consultation level is the period referred to in the Matrix, the List of Decisions or as otherwise agreed to by the Parties, whichever period is the longest.

Level	Description	Intent
<b>1. Information Sharing:</b> prior to formal consultation process	Proponent or tenure holder engages Chawathil First Nation during planning to provide opportunity to incorporate Aboriginal Rights and Title prior to submitting plan/request to Decision Maker.	Proponent or tenure holder engages directly with Chawathil First Nation and provides summary of communications to British Columbia.

<b>Level</b>	<b>Description</b>	<b>Intent</b>
<b>2. Available on Request</b>	Type of notification whereby British Columbia informs Chawathil First Nation they will not be sending out information.	Chawathil First Nation can request from British Columbia more detailed information about decisions made at this level.
<b>3. Notification</b>	Notify in writing Chawathil First Nation about an upcoming decision and provide overview information. Would be an opportunity for comment.	British Columbia provides Chawathil First Nation base level information and a short reasonable time (21-30 calendar day consultation period determined by the Parties) to comment. Limited follow-up.
<b>4. Expedited Consultation Process</b>	Where there is an imminent threat to a resource value (e.g. mountain pine beetle spread control) an expedited consultation process is undertaken.	Intense but short timeline (about 10 calendar days). A justification for shortening the period would be given by describing the imminent threat. May require a meeting.
<b>5. Normal Consultation</b>	Follow on "normal" track for consultation guided by up-to-date consultation policy. Meetings to resolve issues where possible and make decision in a timely manner.	Intent to follow this course in most circumstances. Usually a 30 – 60 calendar day consultation period. May involve meaningful discussion of accommodation options where appropriate. British Columbia will notify Chawathil First Nation of the final decision where requested by the Chawathil First Nation.
<b>6. Deep Consultation</b>	Use reasonable effort to inform in an accessible manner and to engage in full discussions around the proposed decision. Make reasonable efforts to accommodate where necessary. Preliminary assessments may indicate a significant Aboriginal Rights and Title and a significant impact to that interest.	Would involve meaningful discussion of suitable accommodation options and interim solutions where appropriate. May require extended timelines. British Columbia will provide the Chawathil First Nation with the final decision and rational in writing.

- 1.13 The Parties may agree to increase or decrease the consultation level for a specific proposed Administrative and/or Operational Decision or Operational Plan where detailed Aboriginal Rights and Title information is provided that indicates a different consultation level is appropriate.
- 1.14 Unless requested by the Chawathil First Nation, the Province is not obligated to inform the Chawathil First Nation of the Delegated Decision Maker's decision where the consultation level in respect of the proposed decision was level three (3) or lower.

	<b>FOREST ACT ADMINISTRATIVE DECISIONS</b>							
	<b>TIMBER SUPPLY REVIEW (TSR) ALLOWABLE ANNUAL CUT (AAC)</b>			Admin				
1	Timber Supply Reviews for Timber Supply Area Annual Allowable Cut Determination	Stewardship	Chief Forester	Admin	Normal to Deep Strategic Nature	60 days	L	The Chief Forester must determine an allowable annual cut (AAC) at least once every 10 years. AAC is the amount of wood permitted by the Province to be harvested within a year. There are 4 steps for an AAC determination: data package, Timber Supply Review (TSR) area analysis report and discussion paper, public review and AAC rationale statement and summary of public input. Typically, an AAC process takes 20 months. The Province engages with First Nations at the announcement of AAC and during the 4 phases of the AAC determination. The Strategic nature refers to the complexity of the decision and because of this complexity the default consultation level will most likely exceed 60 days.
2	Allowable Annual Cut Apportionment (TSA)	Tenure	Minister	Admin	Normal to Deep Strategic Nature	60 days	L	The apportionment decision allocates the AAC volume to the various categories of forest agreements specified within Section 12 of the Forest Act. The apportionment follows an AAC determination. The AAC determination will influence the amount of volume that can be allocated to various volume categories. Volume license categories include: Forest Licence (FL), Non Replaceable Forest Licence (NRFL), British Columbia Timber Sale (BCTS), Timber Sale Licence (TSL), Woodlot Licence (WL), Community Forest Agreement (CFA), First Nation Woodland Licence (FNWL) and Forest Service Reserve (FSR). Strategic nature refers to the complexity of the decision and because of this complexity, because of interest in this decision the consultation period will most often exceeds 60 days.
3	Allowable Annual Cut Disposition (TSA)	Tenure	Regional Executive Director	Admin	Normal to Deep Strategic Nature	60 days	L	The disposition plan identifies how uncommitted and or unused or undercut volume within an apportionment category will be disposed of. Dispositions (e.g. new tenure opportunities) are statutory decisions and are consulted individually. The disposition plan is usually related to a new AAC and related apportionment decision. Typically the disposition plan is consulted in partnership with the apportionment decision. The complexity of these decisions will usually result in an engagement period greater than 60 days. From time to time, the Regional Executive Director (RED) will amend the disposition plan to consider unused and or undercut volumes.
4	<b>FOREST LICENCE</b> Non-Replaceable Forest Licence (NRFL) Issuance	Tenure	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	L	The disposition plan typically identifies competitive NRFLs and direct award NRFLs. NRFL grants the rights to harvest an AAC in a specified TSA. May be competitively awarded or directly awarded. Up to a five year term and non replaceable.
5	Non-Replaceable Forest Licence (NRFL) Amendment	Regional Executive Tenure	Admin	Admin	AOR to Normal	0 to 60 days	L	Typically, NRFL amendments are for minor area changes and changes to the condition of the licence. AOR examples: Extend the term for 1 year to complete existing volume commitments, minor area amendments.
6	New Replaceable Forest Licence (RFL) (mostly First Nations)	Regional Executive Tenure	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	M	A RFL grants the rights to harvest a specified volume (i.e. is not area based like a FNWL) of timber from a TSA. RFLs may be competitively awarded or directly awarded. RFLs can be up to a 20 year term and are replaceable every 5 to 10 years.
7	Consolidation of volume based licences within TSA	Tenure	Regional Executive Director	Admin	Notification - One licensee. Normal - Multi Licensees	30 to 60 days	L	F.A. Sec 19. This may be done for administrative efficiencies - The reason it may be notification is there is no change to volume harvested and no change to operational plans.
8	Subdivision of volume based licences within a TSA	Tenure	Regional Executive Director	Admin	Notification- One licensee Normal - Multi Licensees	30 to 60 days	L	F.A. Sec 19 This may be done for administrative efficiencies - The reason it may be notification is there is no change to volume harvested and no change to operational plans.

Decision Number	Decision	Program	Decision Maker	Category	Default Consultation Level	Default Consultation Period	Frequency of Decision (L,M,H)	Description of the Decision
9	RFL Replacement	Tenure	Regional Executive Director	Admin	Notification to Normal	30 to 60 days	L	The Minister must offer a replacement licence unless the licensor denies it. A licence can be suspended if it does not meet the condition of the licence such as non payment to the Crown, failing to the Establishment of a Free Growing Stand.
10	Transfer of AAC between TSA (\$18 of the <i>Forest Act</i> )	Tenure	Regional Executive Director	Admin	Normal	60 days	L	Transfer of AAC between TSA's. Has the potential to increase harvest within the TSA.
11	Transfer of AAC between licences within a TSA (\$ 19 of the Cut Control Regulation)	Tenure	Minister	Admin	Available on Request to Notification	0 to 30 days	L to M	Attributing harvested timber volume from one license to another license (except for woodlot). No additional volume awarded. Considerations include whether this includes one licensee with multiple licences, vs multiple licensees.
12	Transfer of Replaceable Forest Licences	Tenure	Minister	Admin	Normal to Deep	60 days	L	The holder of an agreement (forest license) may transfer an agreement to another person. Both parties have to inform the government of the transfer. The Minister must be satisfied the transfer will not unduly restrict competition in the standing timber, log and chip markets.
13	Transfer of Forest Licences - NRFL	Tenure	Minister	Admin	Notification to Normal **	30 - 60 days	L	The holder of an agreement (forest license) may transfer an agreement to another person. Both parties have to inform the government of the transfer. The Minister must be satisfied the transfer will not unduly restrict competition in the standing timber, log and chip markets.
<b>ROAD PERMIT ISSUANCE and FOREST SERVICE ROAD ESTABLISHMENT - Forest Service Road Use Regulation</b>								
14	Road Use Permit	Engineering and Timber Sales Tenure	District Manager and Timber Sales Manager	Admin	Available on Request		H	Road Use Permits are issued on existing previously built Forest Service Roads. Road use permits ensure maintenance obligations are assigned to the primary user.
15	Road Permit (RP), Road Permit Amendment or Road Permit Deactivation	BCTS	Timber Sales Manager	Admin	Normal	60 days	H	BCTS does use the CP/RP process but consults on road permits.
16	Road Permit (RP), Road Permit Amendment or Road Permit Deactivation	Engineering Tenure	District Manager	Admin	AOR to Deep	0 to 60 days	H	Authorises the construction of a road or maintenance of an existing road on Crown land. Amendments authorise the construction of new road sections or maintenance of an existing road on Crown land. Principles of the CP/RP process apply. District staff review of the information sharing completed by proponents. If the licensee indicates all FN interests are addressed, then AOR is likely. If the licensee indicates FN interests are not adequately addressed, then Notification would be the minimum.
17	Forest Service Road Establishment or Decommissioning	Engineering Tenure	District Manager and Timber Sales Manager	Admin	Notification to Deep	10 to 60 days	L	Authorises the construction or decommissioning of a FSR on Crown land. BCTS does use the CP/RP process but consults on FSR establishment or decommissioning. District staff will review the information sharing completed by the proponent and if the review indicates Aboriginal interests have not been adequately addressed with appropriate accommodations or mitigations, further engagement with First Nations is required.
<b>Forest Tenure Decisions - Misc.</b>								
18	Conversion of Major Timber Sale Licences	Tenure	Minister	Admin	Normal	30 to 60 days	L	FA Sec 24. A pre-existing TSL that has an allowable annual cut greater than 10 000 m3 is converted into a replaceable forest licence, woodlot licence, or forestry licence to cut.
19	Exemptions From Cut Control Limits for Forest Health Purposes	Tenure	Regional Executive Director	Admin	Available on Request		M	Sec 75.9 of the Forest Act for forest licenses, tree farm licenses, woodlots or Timber Sales Licence. Exemption must specify a different limit and may attach conditions. No additional volume is harvested. Only the timing of harvest changes.

## **APPENDIX C**

### **Revenue Sharing Contribution Methodology**

#### **Traditional Territory Forest Revenue Sharing Component**

- 1.0 In each BC Fiscal Year that this Agreement is in effect, and subsequent to the release by the Minister of Finance of the previous BC Fiscal Year's public accounts, a summary document will be prepared of the Chilliwack Natural Resource and the Cascades Natural Resource Districts forest revenue, defined as the total of stumpage, waste and annual rent payments received by the Crown for the previous 2 BC Fiscal Years. An average amount over 2 years will be calculated for the Chilliwack Natural Resource and the Cascades Natural Resource Districts.
- 1.1 For the purposes of the summary document in section 1.0 of this Appendix, the stumpage payments from Chawathil First Nation's Forest License (if applicable) will not be included in the calculations of forest revenue.
- 1.2 The amount of the forest revenue attributed to the Chawathil First Nation's Traditional Territory will be calculated by determining the percent of Chawathil First Nation's Traditional Territory that falls within the Timber Harvesting Land Base in the Chilliwack Natural Resource and the Cascades Natural Resource Districts, applied against the forest revenue described in section 1.0 of this Appendix. This calculation will prorate for overlapping territories of other First Nations.
- 1.3 The Traditional Territory Forest Revenue Sharing Component will be calculated by multiplying 4 percent (while signatory of a SEA) of the forest revenue attributed to the Chawathil First Nation as described in section 1.2 of this Appendix.
- 1.4 If Chawathil First Nation is not receiving capacity funding for forestry consultation through a SEA or RA, then it will receive \$35,000 or the amount calculated in accordance with section 1.3, whichever is greater, which may be used by Chawathil First Nation as capacity funding to participate in the consultation process in accordance with section 6.0 of this Agreement.
- 1.5 For each BC Fiscal Year that this Agreement is in effect, the calculations outlined in sections 1.0 to 1.4 of this Appendix will be performed.

#### **Direct Award Tenure Forest Revenue Sharing Component**

- 2.0 Subsequent to the release by the Minister of Finance of the previous BC Fiscal Year's public accounts, a summary document will be prepared of Chawathil First Nation's Forest License A90591 forest revenue, defined as the total of stumpage payments received by the Crown for the previous BC Fiscal Year.
- 2.1 The Direct Award Forest Tenure Revenue Sharing Component will be calculated by multiplying 50 percent (while signatory of a SEA) of the forest revenue as described in section 2.0 of this Appendix.
- 2.2 For each Fiscal Year that this Agreement is in effect, the calculations outlined in sections 2.0 and 2.1 of this Appendix will be performed.

## **Forest Revenue Sharing Transition**

- 3.0 The Parties agree that a transition to revenue sharing based entirely on Forest Revenue will be phased in over the Term.
- 3.1 For each BC Fiscal Year that this Agreement is in effect, a portion of the Revenue Sharing Contribution is calculated by adding the total of the Traditional Territory Forest Revenue Sharing Component to the Direct Award Tenure Forest Revenue Sharing Component for that BC Fiscal Year.
- 3.2 For each BC Fiscal Year that this Agreement is in effect, the remaining portion of the Revenue Sharing Contribution is calculated by determining the value of the payments that were made by British Columbia to Chawathil First Nation in any given full year under the *Chawathil First Nation Forest Agreement* (“the Annual Amount”) and applying the following percentages to that Annual Amount:
- 3.2.1 2021/22 BC Fiscal Year: 40 percent; and
- 3.2.2 2022/23 BC Fiscal Year: TBD percent; and
- 3.2.3 2023/24 BC Fiscal Year: TBD percent.
- 3.3 Notwithstanding section 3.2 of this Appendix, if the Revenue Sharing Transition Calculation for BC Fiscal years 2021/22, 2022/23 and 2023/24 under section 3.1 provides:
- (a) an amount calculated under sections 1.3 and 2.1 of this Appendix that is equal to or greater than the annual payments received under the *Chawathil First Nation Forest Agreement*, then Chawathil First Nation will receive the annual payments described by the Revenue Sharing Transition Calculation in section 3.1 for BC Fiscal Years 2021/22, 2022/23 and 2023/24; and
  - (b) an amount calculated under the Revenue Sharing Transition Calculations in sections 3.1 and 3.2 of this Appendix that is greater than the annual payments received under the *Chawathil First Nation Forest Agreement*, then Chawathil First Nation will receive an annual payment for BC fiscal Years 2021/22, 2022/23 and 2023/24 that is equal to the annual payment received under the *Chawathil First Nation Forest Agreement*.
