

B.C. COASTAL FISHERIES
FORESTRY GUIDELINES

MANAGING DEBRIS

Clean up garbage and debris

Remove yarding debris
from streams

Keep machinery away
from streams

Ensure full suspension of logs
when cross-stream yarding

Protect stable debris
in streams

Band cedars to
minimize breakage

Fall away from streams

Leave Streamside
Management Zones

Leave wind-firm buffers

Keep logging debris out
of stream channels

Don't litter

Clean debris out of
ditches and culverts

Avoid yarding
through streams

Don't pile logs next
to or in streams

Minimize breakage
when falling

Keep salvage waste
out of channels

Fall away from
streamside areas

THE WAY TO DO IT

THE WAY NOT TO DO IT
