Magnetic whiteboards

Designed for powerful communication in any workspace, these highly durable whiteboards can easily be used as a bulletin or message board. They resist staining, ghosting, scratching and dents and are available in two sizes.

We appreciate your patience as we are experiencing higher than normal volumes for this time of year which is causing some delay in delivery times. We hope to return to regular delivery times soon.

Thank you.

DCV has the right **headset** for you!

On **Monday, July 29**, Shared Services BC launched a new tool to all BC Public Service employees. Microsoft Lync 2010 will replace the Microsoft Office Communications Server 2007 application.

This technical upgrade ensures public service employees continue to have access to modern, innovative tools to support citizen-centered service delivery.

With this new system the voice function will require the use of a compatible headset, speaker and microphone, or a USB audio device headset for voice messaging and meetings.

We have two compatible convenient hands-free headsets.

A screenshot of the British Columbia Government website. The header includes navigation links for GOVERNMENT, RESIDENTS, EDUCATION, BUSINESS, ENVIRONMENT, HEALTH & SAFETY, EMPLOYMENT, and ABOUT B.C. The main content area is titled "Office Supplies" and features a list of services including printing, supply arrangements, and procurement. A sidebar on the left lists various government services, and a right sidebar promotes "Managed Inventory Services".

On July 18, 2013, Shared Services BC migrated their first wave of content into the [Gov 2.0](#) website, reflecting a fundamental shift in the way SSBC will serve clients through the web. Our new online presence is designed and driven by user needs, which places services first and deemphasizes organizational structure. In line with the Government of BC's corporate strategy, [Citizens at the Centre](#), this project supports the BC Public Service operating philosophy of service innovation.

In the Gov 2.0 environment, SSBC services can be found primarily under the [services to government](#), residents and business themes. The DCV has its own page which highlights the online store, managed inventory services, and our eco-friendly products

and anti-idling signs. You can also view new pages about our related services, such as mail, procurement, protocol items, asset disposal, printing and publications. Over time, all existing SSBC content will be migrated to the [Gov 2.0 site](#).

To reach this milestone required significant efforts across the organization, including the engagement of SSBC clients, the development of a web strategy based on user feedback, the dedicated work of content authors, and finally the creation of new web pages that are aligned with the strategy. Thank you to all of those that were involved in the development and launch of this project.

Protocol & Recognition

Let's take it **outside**

Smoked Salmon with Ice Wine Glaze

Canada is the world's largest producer of ice wine, the rare dessert wine made by pressing grapes that have frozen on the vine. A touch of this sought-after delicacy adds a subtle wine finish to this smoked salmon - scrumptious! And even better, 5% of proceeds go to local food banks. Ingredients: wild pink salmon, sugar, ice wine, sea salt, natural hardwood smoke.
