- Dr. Karen Seland, Radiologist, Prince George
- Dr. Doug McTaggart, Family Physician, Tsawwassen (Medical Consultant to the Medical Services Commission)
- Fritha Munday, Research Officer, Ministry of Health

Disclaimer

Working Group members are selected by GPAC and complete an initial conflict of interest review. The working group undertakes initial research, evaluates levels of evidence, and prepares a draft guideline in a common template format. Drafts are edited in a robust multistep process including requests for commentary from several hundred medical practitioners, health managers, the Doctors of BC Representative Assembly, and other stakeholders. Input from these reviews is evaluated and incorporated by GPAC into a final draft. The final draft is presented and discussed at the Medical Services Commission, which upon its approval then owns the published guideline.
