## 1. Project Description

### 1.1 Market Sector (Check all that apply)

Heating and Ventilation	Mass Timber and Advanced Materials	Digital Technology Solutions
Fenestration	Hearth Products	Other

### 1.2 Funding Stream

Choose an item.

### 1.3 Funding Amount Requested (\$CDN)

### 1.4 Provide a High-Level Description of the Project in 2-3 sentences. (250 words max)

1.5 Provide a detailed description of the Project, including the rationale for undertaking, expected outcomes, and key steps and deliverables.  
**(2000 words max)**

1.6 Outline the project timeline and key milestones.  
**(500 words max)**

1.7 Describe whether the Project could be awarded a smaller amount than the amount requested and, if so, how your scope, deliverables, and timeline would be affected.  
**(250 words max)**

## 2. Alignment with CleanBC Roadmap to 2030

2.1 Describe the market that your technology and/or building solution is targeting.  
**(500 words max)**

Does your project include an innovative HVAC application?  
If so, please describe the technology solution (250 words max)

**2.2** Does your project include an innovative HVAC application? If so, please describe the technology solution.  
**(250 words max)**

**2.3** Describe the Project's incremental improvement (with respect to energy and emissions including embodied carbon) over baseline technologies and/or standards.  
**(500 words max)**

2.4 Describe the competitiveness of the proposed solution(s) compared to existing processes and technologies as well as to other alternative solutions.  
**(500 words max)**

2.5 Describe the potential for replicability within the market (e.g., does the project advance currently available building technologies, materials, and processes in novel ways).  
**(500 words max)**

2.6 Describe the proposed information sharing and dissemination strategy.  
*(500 words max)*

2.7 Describe the Project's broader potential for GHG reduction impacts (including if the product or material has low embodied carbon).  
*(500 words max)*

### 3. Economic Development, Equity, and Reconciliation

3.1 Describe the Project's economic impact (e.g., jobs created, revenue generated, etc).  
**(500 words max)**

3.2 Does the Project support reconciliation with Indigenous peoples? What strategies are in place to promote this outcome?  
**(500 words max)**

3.3 Does the Project provide any additional health, societal or environmental benefits?  
(500 words max)

## 4. Organizational Capacity

4.1 Identify the project team, clearly outlining their roles and responsibilities on the project, and describe their relevant experience and qualifications. If applicable, list all partners, identifying their role and contributions.  
(750 words max)

4.2 Outline any anticipated risks to the successful completion of the Project. Describe risk mitigation measures that are in place to ensure project success.

**(500 words max)**

4.3 List all sources of funding and all estimated project costs.

***(Please use separate CBBIF3 Budget Template)***

## 5. Supporting Documents

Please list all supporting documents that you will be submitting with your application.
