Your home network protects the connections you make on your Wi-Fi ... to your organization's network while working from home and to your most personal, confidential information you access from home.

What is the ONLY Wi-Fi security you should be using?

1. Wi-Fi Protected Access (WPA)
2. Wi-Fi Protected Access II (WPA2)
3. Wired Equivalent Privacy (WEP)
4. Wired Protected Elite (WPE)
5. Wi-Fi Protected Alpha (WPA)
