NO. 44

ALBERNI TREE FARM LICENCE

THIS LICENCE, made as of August 1, 1984

BETWEEN:

THE MINISTER OF FORESTS OF BRITISH
COLUMBIA, on behalf of HER MAJESTY
THE QUEEN IN RIGHT OF THE PROVINCE
OF BRITISH COLUMBIA,

(the "Licensor")

OF THE FIRST PART,

AND:

MACMILLAN BLOEDEL LIMITED
1075 West Georgia Street
Vancouver, British Columbia
V6E 3R9

(the "Licensee")

OF THE SECOND PART

WITNESSES that, under section 33.1 of the Forest Act, the
parties agree as follows:

1.00 GRANT OF RIGHTS, LICENCE AREA AND TERM

1.01 Subject to this Licence and in consideration of the
Licensee's covenants in it the Licensor grants to the Licensee,

- (a) the right during the term of this Licence to enter and
occupy Crown land in the licence area for the purpose of
managing it according to management and working plans,
- (b) the right during the term of this Licence to manage Crown
land in the licence area according to management and
working plans, and

- (c) subject to paragraph 14.01 and the Forest Act, the exclusive right during the term of this Licence to harvest timber from Crown land in the licence area, according to management and working plans and from areas specified in cutting permits issued from time to time under this Licence.

1.02 The Licence area is

- (a) the private land and Timber Licences described in Schedule "A" to this licence, and
(b) the Crown land described in Schedule "B" to this Licence, and as shown outlined in bold black on the map attached to this Licence, but excludes Crown land deleted, from time to time, under the Forest Act.

1.03 As Timber Licences expire, or as areas are deleted from them under section 57 of the Forest Act, the land subject to the Timber Licences or the areas deleted, as the case may be, shall be deemed to be deleted from Schedule "A" and to be added to Schedule "B".

1.04 This Licence may be amended by agreement of the parties, by deleting from the licence area private land described in Schedule "A" to this Licence, where

- (a) the private land is required for a use that is more valuable than timber production, and
(b) the deletion would not, in the Chief Forester's opinion, unreasonably disturb the management of the licence area for timber production.

1.05 The term of this Licence is 20 years, 5 months, beginning August 1, 1984.

1.06 On its tenth anniversary this Licence may be replaced according to the Forest Act.

2.00 MANAGEMENT AND WORKING PLANS

2.02 The management and working plans approved under the Tree Farm Licences that, under the Forest Act, are replaced by this Licence shall, until February 28, 1985 be deemed to be management and working plans approved under paragraph 2.07.

2.03 Not later than June 30 of the fifth year of the management and working plan required under this Licence, and every fifth year afterward, the Licensee will submit for the Chief Forester's approval a proposed management and working plan for the 5 year period beginning January 1 of the following year.

2.04 The Chief Forester, at the Licensee's request or on his own initiative, in a notice to the Licensee, may require that a management and working plan be amended or replaced where

- (a) timber in the licence area is damaged by fire, wind, insects, disease, or other natural forces, or
 - (b) damage is caused to a timber processing facility of the Licensee, or there is labour conflict, war, civil insurrection, adverse weather conditions, depressed markets or other circumstances beyond the Licensee's control, or
 - (c) serious and unforeseen damage is caused to soils, fisheries or wildlife resources, of the licence area,
- and the Chief Forester considers that the occurrence has rendered the management and working plan inadequate.

2.05 Where a notice is given under paragraph 2.04

- (a) the notice shall specify the occurrence, the extent to which the management and working plan is inadequate and the nature of the change required by the Chief Forester, and
- (b) the Licensee will, within 6 months after the notice, submit for the Chief Forester's approval a proposed management and working plan or a proposed amendment to the management and working plan, as the case may be, to have effect during the unexpired term of the then current management and working plan.

2.06 A proposed management and working plan shall be prepared, signed and sealed by a registered professional forester and shall contain

- (a) information respecting the inventory of the forest resources and, where available to the Licensee, and where required by the Chief Forester, respecting the soils, fisheries and wildlife resources and recreational capabilities, of the licence area,
- (b) a proposal for developing timber harvesting operations and providing access on the licence area,
- (c) a proposal for protecting the forest in the licence area from damage by fire, insects, and disease,
- (d) a proposal for reforesting and providing other silvicultural treatments to the licence area,
- (e) the Licensee's program for fulfilling its obligations under part 10.00, and

- (f) such other information respecting the development, management and use of the licence area as the Chief Forester requires.

2.07 The Chief Forester will approve, from time to time, management and working plans for the licence area, acceptable to him, that specify

- (a) an allowable annual cut that he determines may be sustained from the licence area, having regard to
 - (i) the composition of the forest on the licence area and its expected rate of growth, determined from an inventory of the forest,
 - (ii) the expected time that it will take the forest to become re-established on the licence area following denudation,
 - (iii) silvicultural treatments to be applied to the licence area,
 - (iv) the standard of timber utilization and the allowances for waste and breakage it is expected will be applied with respect to timber harvesting operations conducted on the licence area, and
 - (v) any other information that relates to the capability of the licence area to produce timber,
- (b) measures taken and to be taken by the Licensee, consistent with this Licence and the Forest Act, for developing, protecting, restoring and improving the forest resources in the licence area, and for fulfilling its obligations under part 10.00, and
- (c) the portion of the allowable annual cut that the Chief Forester determines is attributable to Schedule "B" land at the beginning of the term of this Licence,

and any management and working plan may provide for the protection of such unique features of the licence area as are identified from time to time, by studies within the licence area, the results of which are approved by the Chief Forester.

2.08 A management and working plan shall be deemed to be a part of, and shall be consistent with, this Licence.

5.04 Where the Regional Manager or the District Manager considers that timber harvesting or related operations that are proposed to be carried out under a cutting permit or road permit are likely to cause damage to the improvements or chattels of a lawful occupier or lawful user of Crown land, the Licensee may be required in the cutting permit or road permit

- (a) to prevent the damage from occurring,

- (b) to pay reasonable compensation to the occupier or user in respect of damage that occurs, and

- (a) fails to prevent the damage from occurring, and
- (b) fails to pay reasonable compensation to the occupier or user,

- (a) at its own expense survey the part of the right of way located on private land and register a plan of the survey in the appropriate Land Title Office, and
