

FIGURE 44  
**ALCOHOL-RELATED DEATHS BY LOCAL HEALTH AREA**  
 BRITISH COLUMBIA, 2006-2010

#### Notes to Table 41

\*Statistical testing indicates that observed deaths are significantly different from the expected deaths ( $p < 0.05$ , two tailed).

+Denotes significance based on less than five deaths. Coding practices from 1995 to 1999 may have produced over-counting of alcohol-related mortality. With the introduction of ICD-10 in 2000, more specific codes are available. Currently produced data should not be used in combination with data produced prior to 2000.

Note: Refer to Figure 1 to clarify geographical location of LHAs.
