**Red and Blue Listed Species Management  
within the Arrow Forest District,  
Pope and Talbot Ltd. Operating Areas**

*(Summarized list of Red and Blue Listed Species for TFL 23 from Jennifer Heron,  
M.Sc., R.P.Bio., F.I.T original report)*

---

## Red and Blue-listed Species of Possible Forestry Concern within Pope and Talbot's Arrow Operating Areas

The biodiversity within Pope and Talbot's Arrow Forest District operating areas includes the following red and blue listed species (see also attached lists of Conservation Data Centre):

- 25 vertebrate species,
  - 54 plant species,
  - 4 butterfly species,
  - 1 dragonfly/ damselfly species and
  - 2 plant communities
- 
- American Bittern, *Botaurus lentiginosus*
  - Bobolink *Dolichonyx oryzivorus*
  - Prairie falcon, *Falco mexicanus*
  - Short-eared owl *Asio flammeus*
  - White-throated Swift *Aeronautes saxatalis*

### *Fish*

- Bull Trout, *Salvelinus confluentus*
- Cutthroat Trout, *lewisi* subspecies *Oncorhynchus darki lewisi*
- Rocky Mountain Sculpin, *Cottus punctulatus*
- Shorthead Sculpin, *Cottus confusus*
- Umatilla Dace, *Rhinichthys Umatilla*
- White Sturgeon (Columbia River population) *Acipenser transmontanus* pop. 2

### *Amphibians and Reptiles*

- Painted Turtle, *Chrysemys picta*

**Vertebrate Species that are of possible forestry concern have met the above criteria and have a field identification card**

### *Birds*

- Canyon Wren *Catherpes mexicanus*
- Great Blue Heron *Ardea herodias herodias*
- Lewis's woodpecker *Melanerpes lewis*
- Western Screech-owl *mauritanicus* subspecies
- Williamson's sapsucker, *thyroideus* subspecies
  - include displacement from nest sites due to human disturbances, removal of suitable

### *Mammals*

- Badger, *Taxidea taxus*
- Caribou (southern population) *Rangifer tarandus* pop. 1

- Fisher
- Grizzly bear
- Townsend's big-eared bat
- Wolverine, *lucus* subspecies

#### *Amphibians and Reptiles*

- Coeur d'Alene Salamander *Plethodon idahoensis*
- Racer

#### Vascular Plants

##### Vascular plant species that did not meet these criteria include:

- Alkali-marsh butterweed *Senecio hydrophilus* grows in swamps, meadows, berms, marshy areas and riverbanks in moist and sunny areas, and is tolerant of alkali conditions. (ICHdw, ICHxw)
- Bent-flowered milk vetch *Astragalus vexilliflexus* var. *vexilliflexus* grows in rocky, gravelly and open scree slopes and grassy areas in mesic to dry sites in the subalpine and alpine zones. (AT, ESSFdk, ESSFdkp, ESSFmv2, ICHrnw2)
- Bigleaf sedge *Carex amplifolia* grows in moist to wet areas, adjacent to moist meadows, bogs, streambanks and swamps in the lowland to montane areas. (CWHdm, ICHdw, ICHmw2, ICHmw3, ICHwk1, IDFmw1, IDFxh1a)
- Blackened sedge *Carex opapilloosa* grows in openings and meadows the upper subalpine to alpine zones. (ESSFdcp1, ESSFxcp)
- Booth's willow *Salix boothii* grows in wet to moist streambanks, meadows, and openings, overflow channels, seeps and riparian areas in the montane and subalpine zones. (ICHmk1, ICHmw2, IDFdk1, IDFdk2, IDFdk3, IDFdm1, IDFun, IDFxh2, IDFxw, MSdk, MSdm1, MSxk)
- Brewer's monkey flower *Mimulus breweri* grows in open meadows, grasslands, slopes, and ridges on sandstone or limestone substrates in the montane zone. (BGxh1, IDFdk1, IDFdm1, IDFxh1, MSxk, PPdh1, PPxh1)
- Common clarkia *Clarkia rhomboidea* dry and open areas (ICHxw)
- Cup clover *Trifolium cyathiferum* grows in vernally wet seepage areas, meadows and mesic to moist open and often sandy sites in lowland, steppe and montane zones. (BGxh1, CDFmm, CWHmm2, CWHxm1, CWHxm2, ICHdw, ICHmw3, IDFdm1, IDFxh1, PPdh1)
- Dwarf hesperochiron *Hesperochiron pumilus* Meadows, open slopes are areas that are rocky and with seepage (ICHdw)
- Hairy owl clover *Castilleja tenuis* Meadows and moist to wet flats with seasonal pools (ICHdw)
- Harkness' linanthus *Linanthus harknessii* Grasslands (BGxh1)
- Heterocodon *Heterocodon rariflorum* Sunny, rocky slopes and fields. (CDFmm, CWHmm2, CWHxm1, CWHxm2, ICHdw, IDFdm1, IDFdm2, IDFxh1)
- Holboell's rockcress *Arabis holboellii* var. *pinetorum* Shrublands and grasslands with dry to mesic rocky slopes (BGxh1, BGxw1, ESSFwc4, IDFxm, SBSdk)

- 
- Kellogg's knotweed *Polygonum polycaloides* ssp. *kelloggii* Seasonal pools, ditches, meadows and roadsides (ESSFwc4, ICHdw, ICHmk1, IDFdk1, IDFww, IDFxh1, IDFxm, MSdm2, MSxk)
  - Lakeshore sedge *Carex lenticularis* var. *lenticularis* grows on the edges of marshes and sandy beaches, and meadows in wet areas in the lowlands to montane zone. (CWHms1, ESSFdk, ICHmk1, ICHmw2, IDFmw2)
  - Narrow leaved skullcap *Scutellaria angustifolia* Open talus slopes, rocky areas that are with dry southern exposures (ICHdw, ICHxw, PPdh2)
  - Pale bulrush *Scripus pallidus* Streambanks, ditches, lakeshores, springs, wet seepage areas, swamps and meadows (ICHdw, IDFdm2)
  - Pink Agoseris *Agoseris lacaschevitzii* Meadows, grasslands and open areas in sandy dry soils and semi-shady environments (AT, ESSFmw, ESSFwc4, ESSFwcp2, ESSFxc, ICHmw2, ICHmw3, ICHwk1, IDFdk1, MSdm2)
  - Pink fairies *Clarkia pulchella* grows in grasslands, often with sagebrush or rabbitbrush, in open areas in the steppe and montane zones. (BGxh1, ICHdw, ICHmk1, ICHmw2, ICHxw, IDFdm1, IDFmw1, IDFxh1, IDFun, MSxk, PPdh1)
  - Pointed broom sedge *Carex scoparia* Wet lakeshores, meadows, springs, swamps, ditches and similar sites (BWBSmw1, CDFmm, CWHdm, CWHvh1, CWHxm1, ICHdw, ICHwk1, ICHxw, SBSvk)
  - Prairie rocket *Erysimum asperum* dry disturbed sites, such as roadsides and ravelling slopes (ICHdw)
  - Rocky mountain sedge *Carex saximontana* rocky slopes and meadows (BGxh1, BGxh3, BGxw2, CWHds, ESSFmw, ESSFvx, ICHdw, ICHxw, IDFdk3, IDFxh1, IDFxh2, IDFxm, MSdk, SBSdk, SBSdw2)
  - Seep-spring arnica *Arnica longifolia* Seepages in openings and meadows (AT, ICHvk1)
  - Small fruited willowherb *Epilobium leptocarpum* Gravelly and pebbly banks, seasonal seepages and rock bluffs (AT, CWHdm, CWHds1, CWHvm2, CWHwh1, CWHxm1, CWHxm2, ESSFmw, ESSFwc4, ESSFwk2, ESSFvx2, ICHmc1, ICHmc2, ICHmw3, ICHwk1, MSdk, SBSwk2, SWBmk)
  - Spanish clover *Lotus unifoliolatus* var. *unifoliolatus* Open sites, meadows and disturbed sites such as roadsides (CDFmm, CWHxm2, ICHdw, ICHxw)
  - Steer's head *Dicentra uniflora* grows near melting snow patches in meadows in the subalpine (ESSFmw, ESSFwc, ICHdw, ICHmk1, IDFdm1, IDFww, IDFxh1)
  - Sutherland's larkspur *Delphinium sutherlandii* shrublands and brushlands, sometimes open forests (ESSFvc, AT)
  - Western hawksbeard *Orepis occidentalis* ssp. *pumila* Shrublands, scrublands, grasslands, dry slopes (BGxh2, ESSFmw, ICHdw, ICHmw2)
  - Western Jacob's ladder *Polemonium occidentale* ssp. *occidentale* Swamps, marshes, streambanks, seasonally wet areas and meadows (BGxh1, BWBSmw1, BWBSmw2, BWBSwk2, ESSFmv2, ESSFmw, ESSFwc4, ICHdw, ICHmc2, IDFdk2, IDFxh1, MSdm2, SBPSxc, SBScm2, SWBun)
  - Western St. John's wort *Hypericum scouleri* ssp. *nortoniae* Streamsides, marshes, swamps, open slopes, meadows and moist sites (CWHvh1, CWHvm1, CWHxm1, ESSFdk, ESSFwc4, ESSFwcp4, IDCdw, IDFdm2, IDFxh2, PPdh2)

## **Vascular plants that are of possible forestry concern and did meet the above criteria**

The following 24 vascular plant species have been identified with a higher probability of being encountered during forest operations according to their habitat requirements, and thus a field identification card has been developed. Only brief habitat descriptions are provided below:

Common Name	Latin Name	Habitat
Atkinson's coreopsis	<i>Coreopsis tinctoria</i>	Grows in full sun with dry to moist soils. Habitats include riverbanks, prairies, savannas, open rocky woods and roadsides. (BGxh1, ICHdw)
Blunt-sepaled starwort	<i>Stellaria obtusa</i>	Grassy meadows, growing along rotting logs; in moist soil, under willows, North-facing slope near road; in aspen-fir forest; moist soil under trees; on edge of spruce grove on limestone ridge north of peak; montane forests. (ESSFdk, ESSFwc2, ESSFwc4, ESSFwcp2, ESSFwk1, ICHdw, IDFdm2, IDFww, IDFxh1a)
Columbia River locoweed	<i>Oxytropis campestris</i> var. <i>columbiana</i>	Dry to mesic sandy, gravelly or rocky sites, including river bars, terraces, rock outcrops, grassy slopes, meadows, clearings, roadsides, alpine tundra and heath, and open forests in the steppe, montane, subalpine and alpine zones (BGxh1, ICHmw2)
Crested wood fern	<i>Dryopteris cristata</i>	Thickets, marshes, swamps, open shrubby wetlands, sphagnum bogs, swampy woodlands and moist woods. (ICHdw, ICHmc1, ICHmw2, ICHmw3, ICHvk2, ICHwk1, ICHxw, IDFmw2, IDFxh1, SBPSmk)
False mermaid	<i>Floerkea proserpinacoides</i>	Wet open forests, streamsides, marshes, seepage slopes and other wet sites (ICHdw, ICHmk1, IDFdm1, MSxk)
Lace fern	<i>Cheilanthes gracillima</i>	Rocky cliffs and rock crevices, near timberline and growing in exposed sites. Possibly encountered during road building activities (CDFmm, CWHds1, ESSFmw, ESSFwc4, IDFww, MHmm1, MSdk, MSdm2)
Least bladdery milk-vetch	<i>Astragalus microcystis</i>	Open forests in sandy to gravelly soils, riverbanks, grassy and rocky hillsides and river shores. (ICHdw)

---

Least moonwort	<i>Botrychium simplex</i>	Coniferous and deciduous forest, wet to moist seepages and seasonal pools (BWBSmw1, CDFmm, CWHds1, CWHxm1, CWHxm2, ICHmw2, IDFxh1, MSdk, SBPSxc)
Long-leaved aster	<i>Aster ascendens</i>	Forest openings (ICHdw, IDFdm2, SBSmc2)
Mountain blue-curls	<i>Trichostema oblongum</i>	Seasonal seepages and pools in forest openings (ICHmw2)
Nettle-leaved giant-hyssop	<i>Agastache urticifolia</i>	Open slopes and forest openings in steppe to montane zones (BGxh1, ESSfdc1, ICHdw, ICHmk1, ICHmw2, IDFdm1, IDFxh1, MSxk, PPdh1, PPxh1a)
Northern linanthus	<i>Linanthus septentrionalis</i>	Forest openings (BGxh1, BGxh2, BGxw1, ESSFdk, ICHdw, ICHmk1, IDFdm1, IDFdm2, IDFxh1, IDFxh1a, IDFxh2a, MSdk, PPdh2)
Northern violet	<i>Viola septentrionalis</i>	Open forests (ICHdw, ICHmw2, IDFxh1)
Porcupingrass	<i>Hesperostipa spartea</i>	Open forests and grassy slopes (BGxh1, BGxh2, ICHdw, IChmw2, IDFmw1, IDFxm)
Purple oniongrass	<i>Melica spectabilis</i>	Open forests and wet to dry meadows (BGxh2, ESSFdcp2, ESSFdk, ESSFdkp, ESSFmw, ESSFwc4, ESSFxc, ICHdw, IDFmk1, IDFdk1, IDFdw, IDFun, MSdk, SBSmc2)
Smith's melic	<i>Melica smithii</i>	Cool moist deciduous and coniferous forests (CDFmm, CWHdm, CWHxm1, CWHxm2, ESSFdk, ICHdw, ICHmw2, ICHmw3, ICHwk3, IDFdm1, IDFmw2, IDFxh1, SBSdk, SBSdw1, SBSmk1, SBSwk1, SBSwk2)
Smooth goldenrod	<i>Solidago gigantea ssp. serotina</i>	Forest openings (ICHdw, ICHmk1, ICHmw2, IDFdk, IDFdm2, IDFxh1)

---

<b>Common Name</b>	<b>Latin Name</b>	<b>Habitat</b>
Smooth willowherb	<i>Epilobium glaberrimum</i> <i>ssp. fastigiatum</i>	Moist open forests and streambanks (AT, CWHds1, CWHvh1, ESSFmw, ICHdw, ICHmw2, IDFun, IDFww, MSxk)
Snow bramble	<i>Rubus nivealis</i>	Forests (CDFmm, CWHmm2, CWHvh2, CWHvm1, CWHxm1, CWHxm2, ICHmw2, ICHmw3, MHmm1)
Spurless touch-me-not	<i>Impatiens eccliptica</i>	Forests (ICHdw, ICHxw, IDFdm2)
Sweet-marsh butterweed	<i>Senecio hydrophiloides</i>	Forest openings (ESSFdk, ICHdw, ICHmk1, MSdk, PPdh1)
Tall bluebells	<i>Mertensia paniculata var. borealis</i>	Open forests, streambanks and meadows (ESSFwc4, ICHdw, ICHmw2, ICHxw)
Three-leaved lewisia	<i>Lewisia triphylla</i>	Open forests, gravelly and sandy slopes and meadows (AT, ESSFdcp2, ESSFwc4, ICHdw, IDFdm2)
Verticillate umbellifer	<i>Ligusticum verticillatum</i>	Streambanks, forest openings, marshes and meadows. (ESSFwc4)

### **Invertebrates**

The CDC currently publishes two groups of invertebrates on the provincial red and blue lists: Lepidoptera (butterflies and moths) and Odonata (dragonflies and damselflies).

#### **Butterflies and moths.**

- Gillette's Checkerspot *Euphydryas gillettii*
-
