

Licensee Name and Address:

Dear District Manager:

Date:

Pre Harvest Waste Assessment Special Forest Products Application for Transporting Timber for the Purpose of Manufacturing it into Special Forest Products Concurrent with Primary Harvest Operations

Please accept this application for the transportation and scale of timber for the purpose of manufacturing

it into Special Forest Products (SFP) as outlined in s.94.1 of the <i>Forest Act</i> . For the purposes of the Pre Harvest Waste Assessment process SFP means chip, hog fuel and post and rail material as defined by the <i>BC Provincial Scaling Manual</i> .								
The Licence(s), Cutting Authority and/or Timber Sale Licence(s) and Cut Block(s) from which timber will be cut and transported as Special Forest Products (SFP) under this application are listed as follows:								
Licence(s)	Timbermark	Cutting Authority/TSL	ECAS Cut Block Identifier	FTA Cut Block Identifier	Estimate PHWA m3	Estimated Completion Date		

The Scale site(s) and location in which the SFP will be scaled under this agreement are listed as follows:

Scale Site	Location	**Stratum	Estimated vol per Stratum	Timber Mark *	Cut Block(s) *

- * Required only if not all blocks are going to each Scale Site
- **Required if known

This application is intended for primarily non-sawlog timber which may be removed concurrent with harvesting a cut block.

I agree to the Conditions as set out in the *Provincial Logging Residue and Waste Measurement Procedures Manual*. I agree that the weigh program will be set prior to PHWA loads for the designated strata and that Ministry samples, as directed by the District, will also be set. Further, prior to weighing loads, the handheld will be programmed to include Grade 5.

This certifies that all listed blocks are owned by the applicant, they are in ECAS and are complete and accurate.

Please see the PHWA SFP Authorization for a list of all application conditions <u>PHWA SFP</u> Authorization.
