Subject: Reply & B.C. & Canada unknown our B.C. Int'l Trades & Business Chinese pioneers 12, 14, 13 to et al John Yap's Holiday Open House invitation

Dear Hon. John Yap, MLA,

Thanks zillions your kind invitation on the 18th our Association Executive Directors Colleagues & I will attend. And delighted to see you again updated on our trades and businesses continued underway which is unknown. I've briefly mentioned to you on September 19, 2013 banquet functions together on the same table...And November 2, 2013 of my then returned from Chengdu, Sichuan, Guangzhou, follows with meetings with Kuming, Nanking and Beijing flew to meet me of aforesaid trades and business "2-ways" I've created between B.C. and China are delightful fruition...

That on top of as aforesaid, I'm proud of our 5 generations born and raised British Columbians, especially to-day 12/14/ 2013 our parents Kate & Chap Kwong Leong's 80th wedding anniversary memorial, that my Industrialist nephew Kerry Leong, is the 4th generation through long hours hard work is the Founder & Developed the new B.C. Coal Mine. We're proud of him with "pride & joy" that his 1st shipment are already shipped to Japan. And Kerry's Arthron Construction built B.C. Roads & Infrastructures etc. His son, is our 5th generation British Columbian, my Grand-Nephew, Rockland Leong is the B.C. Coal Mine Manager. They're son and grandson of my brother Wally Leong's Kelowna B.C. Engineer, Developer, Famed horses farm and businessman, and I are the 3^d generation born and raised here "we all did made a different too", As mother Kate the 2nd generation born and raised in Victoria never set foot outside of Canada with father Leong Chap Kwong were Prominent Community Leader, Founder & Teachers of the Kwong Gee Chinese Public School.....Patriotically British Columbia Canadian Chinese pioneers proudly now 5 generations do and have done for B.C and Canada....

Yet, as I've previously told you of my upcoming storytelling books: "1881-2013 History Alive: "Chinese People Power Endured Sacrifices, Hardships, Sadness Won Freedom, Privilege, Prestige Forever:" ***We've struggled and suffered without the 'Chinese Human Rights' in British Columbia and Canada since Grandfather Nipp Ng from 1881...Although Grandfather was the 1st Chinese Manufacturer & Merchant,***

Yick Fung Company since 1881 at 544 Fisgard Street (original building still exist is in its business), Victoria, B.C, and was also in Cumberland B.C. manufactured linens & beddings etc. for the Hudson's Bay, Spencer's/Eatons/Sears' Department Stores, and Canadian Pacific Steamships' Chefs uniforms, and the Mines and Sawmills work-clothes...Real Chinese pioneers grassroots contributions made Canada To-day's Prosper Status!! We, there's much, much, more done by each and everyone of us in our family of 5 generations proudly have given hugely to Society, to the Communities, Cities, Province & Canada as a whole and is continued: "ALL IN THE FAMILY MADE A DIFFERENCE LEGENDARY LEGACY"...

*To-day, Premier Christy Clark speaks of B.C. Government apologize of the wrongs to rights after us Chinese several generations have had severely suffered and gone through hardships in British Columbia, Canada & in China of the Head Tax Payers' families isolated in China caused by the lawful discriminations, restrictions, taboos, against us Chinese here were without '**our Chinese human rights**'...That we endured and challenged with integrity, toiled hard, 'blood sweats tears' to joyful achievements for B.C. and Canada...We've had "Enhanced and Enriched British Columbia Economic Developments, International Trades, Energy, Investors, Businesses Investments, Tourisms, among many others"...I'm especially proud through extremely long hours of hard work successfully report to you all (before nobody listened of done for B.C. & Canada) of me and associates has developed real trades in energy & other commodities, investments and investors, and lumber-valued added wood products. (presently order over 10 of 40 foot container which some containers already shipped my associate are anxious to enhance additional wood products containers to Canada. Which we've worked over 10 years to this fruition) Photos, files and records proven...*

I was invited in 1980 by then China President Deng & Shanghai then Mayor Wang Doe Ha as I was one of the 1st Canadian British Columbia businesswoman to China October 1st 1980 just opened to foreigners by the "4 Modernization Programs" I've brought Canada, U.K. Italy, Switzerland, USA businessmen to China established the trade, businesses, cultural exchanges, arts relationships "two-ways" between Canada and China....Also I assisted (then after the Cultural Revolution) Shanghai and Beijing Ballet Academy ballerinas needed re-work theirs & foreigners techniques by my European Ballet Academy Diva travelled with me. And to Guangzhou of its Art & Cultures as priority to established good trades, businesses, among others that from then successfully to British Columbia and Canada now enjoys my sacrifices and pioneered work with more to come...

Then it was political incorrect and was early business relationship with China before became fashionable...Senator Ray Perrault and I with 6 other couples welcomed the 1st China Trade Mission Delegates in Victoria Government House with His Excellency Lt. Gov. & Mrs. Henry Bell-Irving instead in Vancouver...Because of the hostile rallies in

Vancouver then of Communist Regime...B. C. Tel and ATTA in USA did not dare touch the contracts I have had for China communications...Although we were thoroughly of businesses not political at all...its was difficult and safety uncertainty...But I've planted the seeds in China, Hong Kong, Taiwan and Southeast Asia since 1964...

The 1st Hong Kong and the 1st Taiwan Trade Mission between Canada, Hong Kong, Taiwan besides the Bank's hosted a welcome reception, My dear beloved husband Dean Chun Kwong Leung and I hosted the delegations in our home "cocktail Buffett receptions" in established the trades, tourisms, businesses, banking, investors, investments among others are fully recorded to present prosper status in B.C. and throughout Canada....

Of Course, I'm proud in 1960 I initiated and instrumental to then Hon. Minster of Immigration Ellen Fairclough to legislated the Chinese Chefs immigrants programs...to replaced the Chinese elders chefs for the Chinese restaurants in Canada. When Dean & I redeveloped and expanded Chinatown in 1968 & built the 1st large commercial complex, we introduced Hong Kong style push-carts Dim Sum and Hong Kong style banquets to B.C. and Canada in 1973...

After dear husband Dean & I founders, opened & operated Canada 1st of any trust companies branches was Canada Trust Branch the 1st in Canada in our office in Chinatown on September 22, 1962 with 1st by Dean's handwritten Chinese with English brochures educated the public Canada Trust banking... We brought 1st in 1964 of any Canada Trust Company business to Hong Kong Hang Seng Bank and Wing Lung Bank in banking...

Then in 1964 the immigration's policy were very restricted to the Chinese and Asians...only the below age blood children and wives allowed to immigrant to Canada to join their husbands and fathers after May 12, 1949 enfranchisement...Upon we returned from Hong Kong as aforesaid I approached then Hon. Jack Nicholson, Minister of Immigration and I drew up a "white papers" to Ottawa allows non-related businessmen, professionals and skilled immigrants' programs. I worked hard initiated and instrumental legislated successfully allowed the new flows of aforesaid immigrants to Canada. It was perfect timing when just approved & legislated then Hong Kong in 1966 was a turmoil of the Red Army marched into Hong Kong. I've brought huge deposits to the big 5 Canada banks..Our home was 'grand central station' Dean & I constantly at airport & every hotel doormen knew us well in brought the new immigrants businesses! Former Lt. Gov. David & wife Dorothy Lam never ceased in 25 years till their death continued thanked Dean & I met them at airport, gotten their daughters in school, and established David as a realtor and developments...And we brought in billions of dollars from Hong Kong, then Taiwan, now China etc.

Following I fought with then immigration departments Bill Snell and Brian Harrington to legislate the immigration programs allowed the "nanny, domestic helpers, caregivers workers to Canada..Then 1979s -1980s Senator Ray Perrault & I done another "white paper" of the Investors Immigrants, Entrepreneurs Immigrants Programs for Hon. Lloyd Axworthy then Minister of Immigration, took my "white papers" across Canada sell to all the provinces approved the programs as needed before able legislated. Thus, influx the masses of immigrants includes Asians immigrants also benefitted by these aforesaid programs that I have the files and are on records with photos etc ..**I've done for free, generously given my husband Dean and my time, energy, monies helped many generations of people, given our free services for B.C. and Canada included decades of assisted countless immigrants & families settled and established in Canada to as wealthy taxpayers.**

Premier Christy Clark speak of the Head Tax and you also was interested to apologize to the Chinese of our hardships, but B.C. and Federal Government also has not, particularly NONE at all, mention or know of the hardships and difficulties caused by the CDN\$1,000.00 bond/head tax of each Academic Head Tax....All the Chinese School Teachers as my father in 1927 must pay \$1,000.00 as bond/head tax as he was a Classical Chinese Scholar taught the 2nd generation Chinese students that were not allowed (restricted by the law of discrimination against the Chinese) to enter the Canadian Schools...All the academics must pay \$1,000.00 as bond Head Tax, as Uncle Lee Gin Hong in the 1930s, Uncle Stephen in 1949, and Dean in 1948...It was a lot of monies caused severe financial problems, sacrifices and sadness because of his unethical Head Tax Bond of \$1,000...That also threaten their status and social villains harassments too. During the Federal Government intent apologies of the Head Tax I brought fought of the aforementioned injustice, nobody listen nor care how hard and hurt we've suffered throughout the decades/1/2 century!

Our hearts of patriotism genuinely for free at our own expenses and costs have done for B.C. and Canada although are not recognized nor acknowledged by the governments...We have given to all generously all around happily beneficial 'two-ways' trades, economic developments, employments, really truly benefits our Canadians & British Columbians!! Now as I continued in energy, natural resources and valued-added wood products to China with my associates..which I've told you on September 19, 2013 dinner...Warmest Best Wishes...

Happily fruition as we celebrate and Wishing You All A Merriest Merry Christmas Festivities

And Joyous Happy 2014 Prosper Healthy New Year to YOU and YOURS!!

Thanks zillions

God Bless Healthy Richly Success

With Good Fortune

I, "**Faye Leung Speaks for the Pioneers Chinese & Families**" as I were bestowed by the Chinese decades ago at my very young age as "Ambassador for the Chinese at-large" fought for the Chinese "Human" Rights and Living Rights in B.C. All of us Chinese have had suffered immensely from the B. C., City, and Federal Governments wrongfully restricted, discriminated, taboos and **bullied** us Chinese especially in B.C since throughout the Head Tax era to recent decades
