Mapping Improvements

Updated Spatial Data Download

There has been an update to the spatial data download information via GeoBC. Mineral Titles Branch has now included many useful titles attributes such as tenure type, issue date, good to date and claim name, in our data download. Please view our website for more detailed information: <u>http://www.empr.gov.bc.ca/Titles/MineralTitles/GISInformation/Pages/DownloadingData.aspx</u> and <u>http://www.empr.gov.bc.ca/Titles/MineralTitles/GISInformation/Pages/Datasets.aspx</u> for data descriptions.

Mapping Layers updated sources

The underlying source dataset layers for the Provincial parks, protected areas, ecological reserves, and conservancies have been updated to the authoritative source (Tantalis).

Administration Improvements

Cell availability upon forfeiture of tenure

As per Information Update No. 30, cells previously held by a forfeited claim will now become available at 10:00:01 am (PST) on the day the forfeiture event was registered. For more information please read the document on our website:

http://www.empr.gov.bc.ca/Titles/MineralTitles/InformationUpdates/Pages/InformationUpdateNo30.a spx

(May 2009)

Link to search "Reserve Sites"

For clients who are logged on to MTO, you can now search for a Mineral Reserve from within MTO. This link is available on the left hand navigation:

Printer Version Button available throughout MTO

The "Printer Version" button is now available on the "Search for Mineral / Placer /Coal Titles" search screens and the "Search for Reserve Sites" screens. You can print pages without having information cutoff or needing to rotate your page.

Tenure Overlap Report

In addition to your event transaction email confirmation, if you acquire a new claim or amalgamate one or more claims into a single claim, all owners will receive an email with an attached TENURE OVERLAP report (PDF). This PDF report is also available on your bulletin board.

Once logged on to MTO with your BCeID, access your Bulletin Board via the "ADMIN" tab. Each PDF report is for an individual tenure and can be printed or saved to your hard drive. Reports will only be available on MTO for 3 months from when the report was generated.

Open or save your report by:

- 1) clicking on a "Tenure Report for tenure #999999" link(s)
- 2) clicking on the "Download Tenure Report" link.

Request Tenure Overlap Report

(May 2009)

Enter a tenure number that is held in your name or that you act as agent for, then click "NEXT".

Mineral Titles Online	
Tenure Overlap Report Request	Review Request
Recorder: BILINSKI, KAREN E. (KEBILINS_P)	Submitter:
Recorded: 2009/APR/06	Effective: 2009/APR/06
D/E Date: 2009/APR/06	
Review Request	
By clicking Next, MTO starts to proces 591478. This will happen over night and you wi email containing the generated report.	s and generate a Tenure Report for all holders of tenure ill be informed by a bulletin board message and a notification
Back	Next

You may only request a report for owned tenure(s) or for those you act as an agent. All owners and agent(s) requesting the report will receive email notification. Any person or company you have added as an agent (under agent profile management) will have the ability to request a tenure overlap report on your behalf. An event code 'TORR' will appear in the tenure events listing for the registration of tenure overlap report request. For a complete description of each of the categories on the Report visit our webpage.

Exploration and Development Work / Expiry Date Change

We've made many improvements to the Exploration and Development work registration procedure. One of the main improvements for this registration is tenure holders or their agents now have the option to upload technical or physical work reports. You can do this at the time of your Statement of Work (SOW) registration or within the time period before your report is due.

Select the "Mineral/Placer Claim Exploration and Development Work/Expiry Date Change" link as you normally would to register your statement of work. Or, if you have already recorded your work and wish to upload your report, select the "Mineral/Placer Claim Exploration and Development Work – Upload Report link".

(May 2009)

Mineral Claim

Please select one of the following options and click on the link to continue.

Mineral Claim Registration (acquisition)
Mineral Claim Exploration and Development Work/Expiry Date Change
Mineral Claim Exploration and Development Work - Upload Report
Mineral Claim Payment Instead of Exploration and Development Work
Mineral Claim Conversion
Mineral Claim Abandonment
Mineral Claim Reduction
Mineral Claim Amalgamation

We have added new or updated text descriptions to assist clients with recording their work. You can also record linked SOW events, those SOW events that are registered for the same work program only require one report submission. Providing these event numbers will allow for faster approval of your work credit and ensure that you are not contacted by Mineral Titles Branch for additional supporting information.

(May 2009)

Select Tenures Input Method:

۲	Using	Online	Мар	Selection	
---	-------	--------	-----	-----------	--

Input Tenure Number(s)

With Lots

Before you get started:

If you are about to register work from the same work program for which a report has already been submitted, you will be required to enter all the previously registered Mineral Claim Exploration and Development Work/Expiry Date Change event numbers related to this work program/physical or technical report in the spaces provided in an upcoming screen.

Providing these event numbers will allow for faster approval of your work credit and ensure that you are not contacted by Mineral Titles Branch for additional supporting information.

You have options for report submissions. If your report is ready in PDF format, you may upload it with this registration. Alternatively, you may upload your PDF report to this event registration later, or submit your report to the Mineral Titles Branch office. Reports must be submitted within 90 days for Technical Assessment Reports, or 30 days for Physical Work Reports.

PDF (Portable Document Format) is the only acceptable format for attachments.

Maximum size per PDF is 10 MB. Attached report submissions are viewable only by Energy, Mines and Petroleum Resources staff.

To continue, click "Next".

Next

Next screen allows clients to enter their tenure numbers for this SOW registration. This has not changed.
