INDEPENDENT AUDITOR'S REPORT TO ELECTRONIC PRODUCTS RECYCLING ASSOCIATION

We have audited the following selected information within the *Electronic Products Recycling Association Annual Report to the Director [2013 Calendar Year]*:

- Section 4 *Collection System and Facilities* the location of collection facilities, and any changes in the number and location of collection facilities from the previous report in accordance with Section 8(2)(b) of BC Regulation 449/2004 (the Recycling Regulation);
- Section 7 Product Sold and Collected and Recovery Rate the Company's description of total amounts of product sold and collected and recovery rate in accordance with Section 8(2)(e) of the Recycling Regulation; and,
- Section 9. Plan Performance—in accordance with Section 8(2) (g), the Company's description of performance for the year in relation to targets associated with Section 8(2) (b) and (e) of the Recycling Regulation in the stewardship plan. (together the "Subject Matter")

The objective of this Report is to disclose how EPRA management has discharged its responsibility to report on the Subject Matter in accordance with Sections 8(2)(b), (e) and (g) of the Recycling Regulation.

The Subject Matter is the responsibility of EPRA management who has prepared the Subject Matter in accordance with the evaluation criteria which are an integral part of the Subject Matter. Our responsibility is to express an opinion on this Subject Matter based on our audit. Our audit does not constitute a legal determination on compliance with the Recycling Regulation.

EVALUATION CRITERIA

The suitability of the evaluation criteria is the responsibility of management. The evaluation criteria presented in Appendix 1 are an integral part of the Subject Matter and address the relevance, completeness, reliability, neutrality and understandability of the Subject Matter.

SCOPE OF THE AUDIT

Except as described in Paragraph 1 below, we carried out our audit in accordance with the International Standard on Assurance Engagements 3000 (ISAE 3000) published by the International Federation of Accountants. This Standard requires, amongst others, that the assurance team possesses the specific knowledge, skills and professional competencies needed to understand and audit the information included within the Subject Matter, and that they comply with specific requirements to ensure their independence.

1. A key source of information in determining the accuracy of sales data reported by members is our assessment of the "spot review" process carried out on sales data reported by individual members. At the time of our audit, key spot reviews of 2013 data had not yet been completed. As a result, the scope of our work was limited as EPRA had not yet had the opportunity to correct reported sales data for any identified errors arising from the completion of the final spot reviews and we were unable to assess these spot review results in assessing the likelihood of material errors in reported sales data.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures within the Subject Matter. An audit also includes assessing the evaluation criteria used and significant estimates made by management, as well as evaluating the overall presentation of the Subject Matter.

The main elements of our work were:

- Inquiries of relevant management, including walkthroughs, to gain an understanding of the Company's data collection, monitoring and reporting processes in relation to the Subject Matter included in the Annual Report;
- Comparison of the number of collection facilities disclosed to supporting collection contracts and collection records evidencing the existence of collection facilities;

- Comparison of sales and collection data included in the Annual Report to internal records and assessment of associated controls over supplied data where appropriate;
- Testing of internal records of collection data against invoiced weight received by processors; and,
- Comparison of reported performance against targets to internal records and calculations of performance.

OPINION

Based on our examination, except for the effect of adjustments, if any, which may have been necessary to address paragraph 1 above, in our opinion, the Subject Matter within the EPRA Report for the year ended December 31, 2013 presents fairly in accordance with the evaluation criteria, in all material respects:

- the Location of collection facilities, and any changes in the number and location of collection facilities from the previous report in accordance with Section 8(2)(b) of the Recycling Regulation;
- the description of total amounts of the producer's product sold and collected and, if applicable, the producer's recovery rate in accordance with Section 8(2)(e) of the Recycling Regulation; and,
- in accordance with Section 8(2)(g), the description of performance for the year in relation to targets in the approved stewardship plan under Section 8(2)(b) and (e) of the Recycling Regulation.

Our report has been prepared solely for the purposes of management's stewardship under the Recycling Regulation and is not intended to be and should not be used for any other purpose. Our duties in relation to this report are owed solely to EPRA, and accordingly, we do not accept any responsibility for loss occasioned to any other party acting or refraining from acting based on this report.

Vancouver, BC, Canada July 31, 2014

KPMG LLP

Appendix 1 to the Auditor's Report

Evaluation Criteria

COLLECTION FACILITIES

Specific Disclosures in the annual stewardship report for which evaluation criteria were developed		
Disclosure per annual report	Reference	
Total Collection Sites – 162 depots	Comparison of Key Performance Targets on Page 5 and 4. Collection System and Facilities on Page 7	
• Increase in the number of depots in 2013 – 20 depots	• 4. Collection System and Facilities on Page 7	
Changes in the location of collection facilities - combined collection activities provide coverage to 98.2% of the Province.	• 4. Collection System and Facilities on Page 7, Comparison of Key Performance Targets on Page 5 and 9. Plan Performance on Page 13/14	
Total Collection Events in 2013 – 4 events	Comparison of Key Performance Targets on Page 5	

The following evaluation criteria were applied to the assessment of the location of collection facilities, and any changes in the number and location of collection facilities from the previous report in accordance with Section 8(2)(b) of the Recycling Regulation:

1. The number of collection facilities is determined based on the number of facilities with signed End-Of-Life Electronics agreements in place with Encorp for collection of EOLE.

- 2. The number of collection facilities reported in the annual report is reconciled to the total number of collection facilities accepting EOLE (End-of-life electronics) on Encorp Pacific (Canada)'s ("Encorp's") list of Authorized Depots as of December 31.
- 3. All collection facilities in Encorp's listing have signed End-Of-Life Electronics agreements in place with Encorp for collection of EOLE.
- 4. Changes in the number of collection facilities are determined based on notification of changes by individual facilities which are required to be made prior to the effective date of the change. These are recorded in new supplier/change forms which are reflected in updated collection facility listings each month.
- 5. One-off or intermittent collection events are excluded from the number of collection facilities.
- 6. The regional distribution of collection facilities is based on the address of the facility within the list of collection facilities which is categorized into one of eight regions within BC.

PRODUCT SOLD AND COLLECTED

Specific Disclosures in the annual stewardship report for which evaluation criteria were developed	
Disclosure per annual report	Reference (Page # / Table #)
Total WEEE Collected – 23,234 Metric Tonnes	Comparison of Key Performance Targets on Page 5 and 7. Product Sold and Collected and Recovery Rate on Page 11/12
Total WEEE Collected per Capita – 5.0 kilos per capita	Comparison of Key Performance Targets on Page 5 and the Per Capita (kg) collections in the Table within 7. Product Sold and Collected and Recovery Rate on Page 11/12

Total Sales in Units – 8,939,944 units	7. Product Sold and Collected and Recovery Rate
	on Page 11/12

The following evaluation criteria were applied to the assessment of the description of how total amounts of the producer's product sold and collected and, if applicable, the producer's recovery rate has been calculated in accordance with Section 8(2)(e);

- 1. Product Sold: Product sold is determined based on self-reporting by each steward of units sold by category on a monthly/quarterly basis.
- 2. Product Sold: Self-reported data is subjected to spot "reviews" of the completeness and accuracy of information on a sample basis covering approximately 90 stewards (of the 803 total) per year.
- 3. Product Collected: The weight of product collected is based on the weight of material shipped to processors by consolidation facilities as reported to Encorp on the documents accompanying the load (Movement Authorization forms (MAs)).
- 4. Product Collected: Product weights identified on processors' invoices are reconciled against shipping weight from consolidation sites for the specific pallets shipped.
- 5. Product Collected: The number of pallets collected is reconciled against the number of pallets shipped to processors from consolidation sites.
- 6. Product Collected: Adjustments for in-transit material and material not yet invoiced by processors are made for annual reporting purposes.

TARGETS

Specific Disclosures in the annual stewardship report for which evaluation criteria were developed		
Disclosure per annual report	Reference (Page # / Table #)	
(Target #1) 2013 Assertion – Exceeded the 3 year average of 18,000 mt	9. Plan Performance on Page 13/14	
(Target #3) 2013 Assertion: 98.2% of the population covered by collection sites (compared to 90% target)	Comparison of Key Performance Targets on Page 5 and 9. Plan Performance on Page 13/14	

The following evaluation criteria were applied to the description of performance for the year in relation to the specific targets associated with Section 8(2)(b) and (e) of the Recycling Regulation in the approved stewardship plan:

- 1. Targets in the stewardship plan have been identified and reported on by management in the annual report; and
- 2. The description of progress against targets to date is supported by records of progress maintained by the Company.
- 3. Reporting on the "coverage" of the collection network is based on the percentage of BC residents living within 30min (urban areas) or 45min (rural areas) of a collection facility.
